The New Tribe Jul 30 2020 From best-selling author Holly Webb comes a brand new series full of mystery and intrigue following the adventures of a very determined heroine and her dog! Holly Webb fans will be thrilled to pieces to discover the adventures of Maisie Hitchins, the pluckiest little detective in Victorian London. Maisie Hitchins lives in her grandmother's boarding house, longing for adventure. She idolizes the famous detective, Gilbert Carrington, and follows his every case. But Maisie is about to be given the opportunity of a lifetime: her own mystery to solve! In the first book in this fantastic new series, Maisie rescues a puppy in peril whilst running an errand, and adopts him. She decides to investigate the puppy's original cruel owner, but instead gets tangled up in an intriguing plot involving stolen sausages, pilfered halfpennies and a fast-paced bicycle chase. The streets of Victorian London are never safe, but Maisie's on the case!

International GAAP 2019 Feb 17 2022 International GAAP® 2019 is a comprehensive guide to interpreting and implementing International Financial Reporting Standards (IFRS), setting IFRS in a relevant business

context and providing insights into how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching IFRS. Written by EYs financial reporting professionals from around the world, this three-volume guide to reporting under IFRS provides a global perspective on the application of IFRS. Complex technical accounting issues are explained clearly and IFRS is set in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world. The 2019 edition of International GAAP® has been fully revised and updated in order to:

- Continue to investigate the many implementation issues arising as entities adopt IFRS 9 (Financial Instruments) and IFRS 15 (Revenue from Contracts with Customers).
- Explore the complex implementation issues arising as entities adopt, in 2019, IFRS 16 (Leases).
- Include an updated chapter on the new insurance contracts standard IFRS 17 (Insurance Contracts), which reflects the recent discussions of the IASB's Transition Resource Group on implementation issues raised, proposed narrow-scope amendments to IFRS 17 intended by the IASB, and also explores other matters arising as users prepare for the adoption of this standard.
- Include an amended chapter on the revised Conceptual Framework, which was published in March 2018. The changes to the Conceptual Framework may affect the application of IFRS in situations where no standard applies to a particular transaction or event.
- Address amended standards and new interpretations issued since the preparation of the 2018 edition.
- Explain the many other initiatives that are currently being discussed by the IASB and by the IFRS Interpretations Committee and the potential consequential changes to accounting requirements.
- Provide insight on the many issues relating to the practical application of IFRS, based on the extensive experience of the book's authors in dealing with current issues.

United States-Vietnam Relations, 1945-1967 Apr 19 2022 Printed for the use of the House Committee on Armed Services. *Shropshire* Nov 14 2021 The Records of Early English Drama volumes make available historical transcripts that provide evidence of early English drama, music, ceremonial, dance, and other forms of communal public entertainment in Britain before 1642, together with the necessary interpretive introductions and notes to explicate the materials for the reader. *Shropshire*, in two volumes, is the eleventh publication in the series. In the introduction Alan Somerset surveys the social and economic history of each major borough and provides a commentary on the major issues raised in the documents. He discusses travelling performers routes, the places they performed, and the remarkable public

exhibitions of high-wire artists, camels, bears, and giants. The records for this county are rich and varied, providing new detail about local playing and festivities. From *Shrewsbury* for example, comes the complete documentation of a unique, semi-circular outdoor amphitheatre. The documents reveal much - from robbery and riots - to the sometimes acrimonious disputes that show the growing Puritan opposition to sports, which attempted to combat an equally stubborn affection for traditional customs. These records are an invaluable addition to the scholarship of early drama, establishing as they do part of the total context of the great drama of Shakespeare, his predecessors, and his contemporaries.

My Children! My Africa! (TCG Edition) Jun 09 2021 The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Emergency Presidential Power Mar 18 2022

Can a U.S. president decide to hold suspected terrorists indefinitely without charges or secretly monitor telephone conversations and e-mails without a warrant in the interest of national security? Was the George W. Bush administration justified in authorizing waterboarding? Was President Obama justified in ordering the killing, without trial or hearing, of a U.S. citizen suspected of terrorist activity? Defining the scope and limits of emergency presidential power might seem easy—just turn to Article II of the Constitution. But as Chris Edelson shows, the reality is complicated. In times of crisis, presidents have frequently staked out claims to broad national security power. Ultimately it is up to the Congress, the courts, and the people to decide whether presidents are acting appropriately or have gone too far. Drawing on excerpts from the U.S. Constitution, Supreme Court opinions, Department of Justice memos, and other primary documents, Edelson weighs the various arguments that presidents have used to justify the expansive use of executive power in times of crisis. *Emergency Presidential Power* uses the historical record to evaluate and analyze presidential actions before and after the terrorist attacks of September 11, 2001. The choices of the twenty-first century, Edelson concludes, have pushed the boundaries of emergency presidential power in ways that may provide dangerous precedents for current and future commanders-in-chief. Winner, Crader Family Book Prize in American Values, Department of History and Crader Family Endowment for American Values, Southeast Missouri State University *A Researcher's Digest on F.A. Hihn and His Santa Cruz Rail Road Company and Related Subjects* Aug 31 2020 **Contested Skies** May 08 2021 TAA had almost a fifty-year record of ground-breaking aviation throughout Australia. Along with Qantas, the

airline helped Australia overcome the "tyranny of distance", and made a sustained contribution to aviation in its early years. This book tells the inside story of the airline's internal struggle, and relations with governments.

Federal Role in Aviation Oct 13 2021

The European External Action Service and National Foreign Ministries Apr 26 2020 Based

on extensive empirical work by a cross-European group of researchers, this book assesses the impact of the creation of the European External Action Service (EEAS) on the national foreign policy-making processes and institutions of the EU member states. As such, the contributions cover both the involvement of the national diplomatic and foreign policy actors in shaping the outlook of the EEAS and its mission, as well as the changes (or not) it has produced for those actors of the member states. The analysis draws in theoretical frameworks from Europeanization and socialization, but also from intergovernmental frameworks of policy-making within the European Union. An introduction by the editors outlines the issues and trends examined in the book and establishes the theoretical and methodological framework. Split into 2 sections, Part I: EEAS and national diplomacies as part of global and European structures has contributions by Richard Whitman, Rosa Balfour, Christian Lequesne, Caterina Carta and Simon Duke. Part II: National diplomacies shaping and being shaped by the EEAS is covered by Daniel Fiott, Fabien Terpan, Cornelius Adebahr, Andrea Frontini, Ignacio Molina and Alicia Sorroza, Laura C. Ferreira-Pereira, Alena Vysotskaya G. Vieira and Louise van Schaik, Grzegorz Gromadzki, Mark Rhinard, Jakob Lewander and Sara Norrevik, Sabina Kajnc Lange, Ruby Gropas and George Tzogopoulos, Vit Beneš and Kristi Raik. This book is much needed, especially in an era when the EU is trying to pull its weight in the international sphere (e.g. Syria, Iran, the Arab Spring, Chinese relations and emerging powers) but also at a time when the EU is trying to recalibrate its institutional structure in light of the current financial predicaments and questions on the democratic legitimacy of the European project.

Interpretation in International Law May 20

2022 International lawyers have long recognised the importance of interpretation to their academic discipline and professional practice. As new insights on interpretation abound in other fields, international law and international lawyers have largely remained wedded to a rule-based approach, focusing almost exclusively on the Vienna Convention on the Law of Treaties. Such an approach neglects interpretation as a distinct and broader field of theoretical inquiry. Interpretation in International Law brings international legal scholars together to engage in sustained reflection on the theme of interpretation. The book is creatively structured around the metaphor of the game, which captures and illuminates the constituent elements of an act of interpretation. The object of the game of interpretation is to persuade the audience that one's interpretation of the law is correct. The rules of play are known and complied with by the players, even though much is left to their skills and strategies. There is also a meta-discourse about the game of interpretation - 'playing the game of game-playing' - which involves consideration of the nature of the game, its underlying stakes, and who gets to decide by what rules one should play. Through a series of diverse contributions, Interpretation in International Law reveals interpretation as an inescapable feature of all areas of international law. It will be of interest and utility to all international lawyers whose work touches upon theoretical or practical aspects of interpretation.

Arsenal of Democracy Sep 24 2022 In a book based on original archival findings, a prize-winning historian and author of Taxing America offers a sweeping history of the interplay between United States domestic politics and foreign policy since World War II.

Public Finance and Economic Growth in Developing Countries Oct 21 2019 Public finance is crucial to a country's economic growth, yet successful reform of public finances has been rare. Ethiopia is an example of a

country that undertook comprehensive reform of its core financial systems, independent of the IMF and the World Bank, and successfully transformed itself into one of the fastest-growing economies in Africa. With Ethiopia's twelve-year reform as its guiding case study, this book presents new analytical frameworks to help governments develop better financial reforms. It shows in detail how four core financial systems—budgeting, accounting, planning, and financial information systems—can be reformed. One of the principal findings presented is that governments must establish basic public financial administration before moving to more sophisticated public financial management. Other key findings include the identification of four strategies of reform (recognize, improve, change, and sustain), the centrality of ongoing learning to the process of reform, and the importance of government ownership of reform. This book will be of interest to researchers and policymakers concerned with public finance, developmental economics, and African studies.

Nuclear Papers Jun 21 2022 This timely book, published in advance of 2010's inter-governmental Review Conference of the Treaty on the Non-Proliferation of Nuclear Weapons, makes available for the first time newly declassified government correspondence from David Owen's tenure as Foreign Secretary. Nuclear Papers gives new insight into the work of, and response to, the last major strategic nuclear study of the UK's nuclear needs, which was undertaken in 1978. The book demonstrates sustained dialogue between the Callaghan and Carter administrations on the one hand but also the internal disputes and concerns of the UK government as the Cold War and a bleak economic outlook exerted equal pressures, in much the same way as recent foreign policy and the economic downturn have challenged the current government. Owen skilfully ties the events of 30 years ago to the present, highlighting Barack Obama's determination to "show the world that America believes in its existing commitment under the Nuclear Non-Proliferation Treaty to work ultimately to eliminate all nuclear arms". As ever, David Owen is at the forefront of debate, arguing convincingly that momentum should be established towards the elimination of nuclear weapons by all five of the existing declared nuclear weapon states before the 2010 NPT Review Conference gets underway. This book, then, is an attempt to rejuvenate and expand discussions of the future of the world's nuclear weapons by exploring the classified and highly sensitive debates of the past. It will be required reading for anyone interested in UK and US nuclear policy.

The Northern Ireland Peace Process Dec 27 2022 This work traces the genesis, evolution and completion of the peace process in Northern Ireland, from 1920 to the present. The author also provides an account of events that led to the Good Friday peace accord.

Foreign Relations of the United States Jan 28 2023

Report, 1840-1908 Mar 01 2023

May Days in Hong Kong Feb 05 2021 This is

the first sustained exploration of the anti-colonial campaign that was inspired by the Cultural Revolution in China, recent events in Macao, and fuelled by inequalities in Hong Kong society. The riots presented a sustained challenge to British authority. As leftist-led demonstrations evolved into a terrorist bombing campaign, the British security response was also markedly strengthened. Using recently opened archival records, the authors explore the course of the events, their international and imperial contexts, and their connection to the upheaval in China, and Britain's own changing world role. The events of 1967 are also grounded in the wider sweep of Hong Kong's history. The second part of the book presents testimonies from Hong Kong residents, participants in different ways in the unfolding events, which speak to the salience of 1967 in Hong Kong's popular memory. There has been an awkward silence about this episode for almost forty years, and this book begins to normalize discussion about it, and its place in Hong Kong, Chinese and British imperial history.
