The My Home Budget Journal is different than many other types of budget books. This budget planner focuses on budgeting from a weekly perspective. Budget your bills, savings and other goals based on your upcoming paycheck or projected paychecks. You can budget one week at a time if you paycheck changes often, or plan several weeks ahead. Use pencil if you suspect things will change or create a general budget and make adjustments needed. The journal is set up to help you focus on week-by-week budgeting for 4-6 weeks at a time. The main worksheet in the book has a top section for weekly income. List your income, your spouse's income and any additional income you

have coming in. There is an income total so you know exactly what is projected to come in each week. If you have more than five streams of weekly income, we recommend adding all of these incomes together and then listing the total for all of these in the "Other Income" section. The template also has up to 15 sections for you to fill in your expenses on a weekly basis. Include everything from groceries, to gas and other bills that you plan on paying only on that particular week and date when the money comes in. Many people will have several blank sections and this is great because that means you don't have as many weekly bills as you think. Some weeks might be more packed with bills and expenses than others. Each page of the bill worksheet has a place for notes and reminders as well. Write down reminders such as: Finish your taxes, buy Girl Scout cookies from Bethany's friend or time to buy clothes this week. This worksheet is fully customizable so feel free to fully utilize it so

that you can stop on top of your bills and expenses. As you progress through the book you'll also find sections for financial goals and additional pages for journaling. This book is designed to encourage you to progress on your financial journey and reach new milestones such as buying a home, buying a car, investing, saving for vacations and more. Studies have shown that writing down goals and journaling helps us to take action and truly manifest what we want in life. You can start out having just a few goals and then add more as progress through the journal. New goal worksheets and journal pages are found after a series of 6 weekly budget worksheets. Additional goal worksheets and lined pages are also found at the end of the journal. We like to use this section at the back for more long term financial goals. We hope this book meets your needs. NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER • A ten-step plan for finding peace, safety, and harmony with your money—no matter how big or small your goals and no matter how rocky the market might be—by the inspiring and savvy

“Budgetnista.” “No matter where you stand in your money journey, *Get Good with Money* has a lesson or two for you!”—Erin Lowry, bestselling author of the *Broke Millennial* series Tiffany Aliche was a successful pre-school teacher with a healthy nest egg when a recession and advice from a shady advisor put her out of a job and into a huge financial hole. As she began to chart the path to her own financial rescue, the outline of her ten-step formula for attaining both financial security and peace of mind began to take shape. These principles have now helped more than one million women worldwide save and pay off millions in debt, and begin planning for a richer life. Revealing this practical ten-step process for the first time in its entirety, *Get Good with Money* introduces the powerful concept of building wealth through financial wholeness: a realistic, achievable, and energizing alternative to get-rich-quick and over-complicated money management systems. With

helpful checklists, worksheets, a tool kit of resources, and advanced advice from experts who Tiffany herself relies on (her “Budgetnista Boosters”), *Get Good with Money* gets crystal clear on the short-term actions that lead to long-term goals, including:

- A simple technique to determine your baseline or “noodle budget,” examine and systemize your expenses, and lay out a plan that allows you to say yes to your dreams.
- An assessment tool that helps you understand whether you have a “don't make enough” problem or a “spend too much” issue—as well as ways to fix both.
- Best practices for saving for a rainy day (aka job loss), a big-ticket item (a house, a trip, a car), and money that can be invested for your future.
- Detailed advice and action steps for taking charge of your credit score, maximizing bill-paying automation, savings and investing, and calculating your life, disability, and property insurance needs.
- Ways to protect your beneficiaries' future, and ensure that your

financial wishes will stand the test of time. An invaluable guide to cultivating good financial habits and making your money work for you, *Get Good with Money* will help you build a solid foundation for your life (and legacy) that's rich in every way. Is your financial anxiety holding you captive? You don't have to stress about money anymore. YOU can take back control. As a newly divorced single mom making \$24,000 per year and facing down \$77,000 in debt, Kumiko Love worried constantly about money. She saw what other moms had—vacations, birthday parties, a house full of furniture—and felt ashamed

that she and her son lived in a small apartment and ate dinner on the floor. Worse, when her feelings began to exhaust her, she binge-shopped, reasoning that she'd feel better after a trip to the mall. On the day she needed to pay for a McDonald's ice cream cone without her credit card, she had an epiphany: Money is not the problem. Self-Doubt is the problem. Shame is the problem. Guilt is the problem. Society's expectations for her are the problem. She is the solution. Once she reversed the negative thinking patterns pushing her toward decisions that didn't serve her values or goals, her financial plan wrote itself. Now, she's not only living debt-free in her dream home, which she paid for in cash, but she has spread her teachings around the world and helped countless women envision better lives for themselves and their families. Now, building on the lessons she's taught millions as the founder of *The Budget Mom*, she shares a step by step plan for taking control back over

your financial life—regardless of your level of income or your credit card balance. Through stories from navigating divorce to helping clients thrive through recessions, depression, eviction, layoffs and so much more, you will learn foundational practices such as: How to use your emotions to your financial advantage, instead of letting them control you How to create a budget based on your real life, not a life of self-denial How to create a motivating debt pay-off plan that makes you excited about your future, instead of fearing it My Money My Way will give you the tools to align your emotional health with your financial health—to let go of deprivation and embrace desire. Love’s paradigm-shifting system will teach you how to honor your unique personal values, driving emotions, and particular needs so that you can stop worrying about money and start living a financially fulfilled life.
