Fast After 50 is for every endurance athlete who wants to stay fast for years to come. For runners, cyclists, triathletes, swimmers, and cross-country skiers, getting older doesn't have to mean getting slower. Drawing from the most current research on aging and sports performance, Joe Friel--America's leading endurance sports coach--shows how athletes can race strong and stay healthy well past age 50. In his groundbreaking book Fast After 50, Friel offers a smart approach for athletes to ward off the effects of age. Friel shows athletes how to extend their racing careers for decades--and race to win. Fast After 50 presents guidelines for high-intensity workouts, focused strength training, recovery, crosstraining, and nutrition for high performance. You'll learn: How the body's response to training changes with age, how to adapt your training plan, and how to avoid overtraining How to shed body fat and regain muscle density How to create a progressive plan for training, rest, recovery, and competition Workout guidelines, field tests, and intensity measurement In Fast After 50, Joe Friel shows athletes that age is just a number--and race results are the only numbers that count. With contributions from: Mark Allen, Gale Bernhardt, Amby Burfoot, Dr. Larry Creswell, John Howard, Dr. Tim Noakes, Ned Overend, Dr. John Post, Dr. Andrew Pruitt, and Lisa Rainsberger. Triathlons are more popular today than ever before, but for many the idea of training for a triathlon can seem daunting. In this completely updated, revised edition, triathlon champion Eric Harr shows you how to eat healthfully and effectively train for a triathlon in just 4 hours a week over the course of 6 weeks. Triathlon Training in Four Hours a Week includes four separate training programs to accommodate every fitness level; a comprehensive gear guide; a complete menu plan including nutritional options for vegan, paleo, and gluten-free athletes; strategies to stay motivated; and a guide to race day. With clear, concise language and easy-to-follow, step-by-step photography, Triathlon Training in 4 Hours a Week is the ultimate resource for time-crunched would-be triathletes looking to reap the rewards of this challenging sport. The Triathlete's Training Bible is the bestselling and most comprehensive reference available to triathletes. Based on Joe Friel's proven, science-based methodology and his 28 years of coaching experience, The Triathlete's Training Bible has equipped hundreds of thousands of triathletes for success in the sport. The Triathlete's Training Bible equips triathletes of all abilities with every detail they must consider when planning a season, lining up a week of workouts, or preparing for race day. With this new edition, you will develop your own personalized training plan and learn how to: improve economy in swimming, cycling, and running balance intensity and volume gain maximum fitness through smart recovery make up for missed workouts and avoid overtraining adapt your training plan based on your progress build muscular endurance with a new approach to strength training improve body composition with smarter nutrition The Triathlete's Training Bible is the best-selling book on tri training ever published. Get stronger, smarter, and faster with this newest version of the bible of the sport. Internationally recognized triathlon coach and best-selling author Joe Friel teams up with ultra-endurance guru Gordon Byrn in Going Long, the most comprehensive guide to racing long-course and Ironman-distance triathlons. Combining science with personal experience, Friel and Byrn prepare anyone, from the working age-grouper to the podium contender, for success in triathlon's ultimate endurance event. Whether you are preparing for your first long-course triathlon or your fastest, Going Long will make every hour of training count. 40 sport-specific drills to improve technique and efficiency Updates to mental training Key training sessions, workout examples, and strength-building exercises A simple approach to balancing training, work, and family obligations A new chapter on active recovery, injury prevention and treatment Going Long is the best-selling book on Ironman training. Friel and Byrn guide the novice, intermediate, and elite triathlete, making it the most comprehensive and nuanced plan for Ironman training ever written. Going Long is the best resource to break through an Ironman performance plateau to find season after season of long-course race improvements. From bad weather to business travel to traffic safety, there are dozens of reasons why cyclists and triathletes take their rides inside. Although indoor cycling workouts offer the ultimate control over workout conditions, most inside riders don't get the most out of their trainers or spin bikes. RIDE INSIDE offers cyclists and triathletes a smart guide to getting more fitness from every indoor cycling workout. From the world's most experienced personal cycling coach, Joe Friel, RIDE INSIDE reveals all the unique aspects of indoor riding: · Mental aspects like motivation, focus, and enjoyment · Changes in upper body stability, posture, and pedaling technique on a stationary bike · Respiration, hydration, and cooling · Inherent changes in power output · Lower leg tension and eccentric loading from flywheel momentum · Lower effort from lack of terrain changes, headwinds, and crosswinds · Road-like feel · Different shifting patterns All these differences of indoor riding add up to a big impact when the rubber hits the road. Drawing from the foundations of Friel's classic training guides, The Cyclist's Training Bible and The Triathlete's Training Bible, RIDE INSIDE shows how to apply smart and proven training concepts to indoor cycling. Riders will get expert guidance on the best ways to set up a trainer or smart trainer, how to modify outdoor workouts for indoor cycling, how to better monitor power and RPE, and how to use social online training platforms like Zwift to make training better and not worse. Most critically, RIDE INSIDE shows cyclists and triathletes how to do indoor cycling workouts that actually meet their training goals instead of compromising. Power meters measure a cyclist's strength, but this revolutionary training technology can benefit everyone, not just the most powerful riders. The most trusted coach in endurance sports offers a simple user's guide to help cyclists and triathletes master the fundamentals of training. If you are a triathlete, coach, or someone interested in participating in an upcoming triathlon, Sport Psychology Library: Triathlon holds many answers to establishing and maintaining the mental discipline needed for what is certainly one of the most grueling and psychologically challenging events in all of sport. Guided by the expertise of Dr. Joe Baker and Dr. Whitney Sedgwick--both experienced, successful athletes and triathlon competitors - Sport Psychology Library: Triathlon summarizes current research and offers invaluable mental exercises to improve mental performance during triathlon training and competition. A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called "moderate-intensity rut," spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results. The Triathlete Guide to Sprint and Olympic Triathlon Racing will help you discover the speed, thrill, and challenge of triathlon's most popular race distances. Not everyone has time to train for long-course triathlons. By pursuing triathlon's shorter distances, you can enjoy all the total body fitness benefits of the swim-bike-run sport and discover the unique

challenges of short-course racing—all while enjoying a life outside of training. This complete guide from former pro triathletes Chris Foster and coach Ryan Bolton shares all the know-how you need to find speed and enjoy successful racing in sprint and Olympic-distance triathlons. Foster, now the Senior Editor of Triathlete magazine, shares his pro advice for how to set a smart race strategy, how to master triathlon pacing, how to execute fast transitions, how to train to improve your weakness and race to your strengths. Bolton offers smart, effective sprint and Olympic triathlon training plans so you can get started right away, no matter your background. Sprint and Olympic triathlons are triathlon's most popular distances for good reasons. Experienced triathletes returning to the short course will enjoy a break from long, slow hours of training and rediscover the joy of speed. Active people looking for a new challenge can jump right into triathlon's most beginner-friendly distances. The Triathlete Guide to Sprint and Olympic Triathlon Racing makes it simple to get back up to speed in the world's most rewarding endurance sport. Your Best Triathlon is a master plan that will guide experienced triathletes through every week of their season. For each phase of training, Joe lays out the path to success, outlining clear objectives and the guidelines to meet them. Joe Friel's highly refined training plans for sprint, Olympic, half-Ironman®, and Ironman® race distances will help serious triathletes deliver a breakout performance, even those with countless races under their belt. Joe offers a tool kit of proven workouts that will isolate and develop specific abilities. Within each workout and plan, he offers easy modifications to better manage personal limiters and improve performance. Hundreds of thousands of triathletes have relied on Joe Friel and his groundbreaking best seller, The Triathlete's Training Bible, to develop their own self-coached training programs. Now Joe Friel, the most experienced coach in triathlon, reveals his formula for advanced training and coaches triathletes to their best race ever. Hunter Allen and Andy Coggan, PhD have completely revised the book that made power meters understandable for amateur and professional cyclists and triathletes. Power meters have become essential tools for competitive cyclists and triathletes. No training tool can unlock as much speed and endurance as a power meter—for those who understand how to interpret their data. A power meter displays and records exactly how much energy a cyclist expends, which lends unprecedented insight into that rider's abilities and fitness. With the proper baseline data, a cyclist can use a power meter to determine race strategy, pacing, and tactics. Training and Racing with a Power Meter makes it possible to exploit the incredible usefulness of the power meter by explaining how to profile strengths and weaknesses, measure fitness and fatigue, optimize workouts, time race readiness, and race using power. This new edition: Enables athletes to predict future performance and time peak form Introduces fatigue profiling, a new testing method to pinpoint weaknesses Includes two training plans to raise functional threshold power and time peaks for race day Offers 75 power-based workouts tuned for specific training goals This updated edition also includes new case studies, a full chapter on triathlon training and racing, and improved 2-color charts and tables throughout. Training and Racing with a Power Meter, will continue to be the definitive guide to the most important training tool ever developed for endurance sports. Ever dream of being an elite endurance athlete and competing in races like Hawaii's Ironman? Professional athletes are not the only people who have the ability to attain superior athletic accomplishments. Every season tens of thousands of amateur triathletes compete head-to-head, pushing their physical and mental strength to the absolute limits. The standard Ironman competition is a true test: a 2.4-mile open-water swim, followed by a 112-mile bike leg, and a 26.2-mile marathon run. Sought-after multisport coach, Don Fink assures readers that the challenge is not too difficult, the dream is not impossible. His time-efficient training methods have been honed over the years and have been proved to aid anyone in achieving their athletic dreams. Be Iron-Fit provides practical training information in a step-by-step, enjoyable way so that even everyday athletes can attain ultimate conditioning. Included in this revolutionary guide is information on: - The essential workouts - The training cycle- Core training - 12-week training programs - Effective time management - The principle of gradual adaptation - Effective heart-rate training - Preparing with training races - Proper technique - Equipment tips - Race and pre-race strategies - Mental training - Effective goal setting and race selection- Nutrition - And much more With the proper preparation and training techniques explained here, virtually anyone can attain supreme fitness. The Triathlete's Training Bible is the bestselling and most comprehensive guide for aspiring and experienced triathletes. Joe Friel is the most trusted coach in the world and his proven triathlon training program has helped hundreds of thousands find success in the sport of triathlon. Joe has completely rewritten this new 4th Edition of The Triathlete's Training Bible to incorporate new training principles and help athletes train smarter than ever. The Triathlete's Training Bible equips triathletes of all abilities with every detail they must consider when planning a season, lining up a week of workouts, or preparing for race day. With this new edition, Joe will guide you to develop your own personalized triathlon training program and: · become a better swimmer, cyclist, and runner · train with the right intensity and volume · gain maximum fitness from every workout · make up for missed workouts and avoid overtraining · adapt your training plan based on your progress and conflicts · build muscular endurance with a new approach to strength training · improve body composition with smarter nutrition The Triathlete's Training Bible is the best-selling book on tri training ever published. Get stronger, smarter, and faster with this newest version of the bible of the sport. What's New in the Fourth Edition of The Triathlete's Training Bible? Coach Joe Friel started writing the fourth edition of The Triathlete's Training Bible with a blank page: the entire book is new. The science and sport of triathlon have changed much since the previous edition released. This new edition adds emphasis to personalizing training plans, incorporates new power meter techniques for cycling and running, improves on the skill development techniques, updates the strength training approach, speeds recovery for busy athletes, and cuts through the noisy volume of training data to focus athletes on the numbers that mean the most to better performance. See Joe Friel's blog or VeloPress for an expanded summary of improvements to this fourth edition. A perfect companion to any triathlon training program, The Triathlete's Training Diary offers an ideal way for you to plan, record, and better understand your workouts and performance. With undated pages for use any time of the year, this diary offers plenty of space for all the objective and subjective performance metrics you might want to track in a smart format that's been carefully designed, tested, and refined by Joe Friel, the top coach in the sport of triathlon. The Triathlete's Training Diary is wirebound to lay flat and flips easily so you can look up past workouts or settle your pre-race nerves by proving to yourself that you've done the work. This paper workout log is simple to use, never requires a login or password, and can be completely customized to meet your needs for any triathlon training schedule. This physical record of your workouts will reveal insights that don't display on an online dashboard. Fully compatible with Joe Friel's best-selling training programs like The Triathlete's Training Bible, Your First Triathlon, Going Long, and Your Best Triathlon, this diary simplifies the planning and execution of your triathlon training. High-performing athletes know that a training diary is an invaluable tool. Whether they work with a coach or train independently, even elite triathletes keep a training log to hone their feel for performance, consolidate training data in one location, track their progress, monitor for injuries and overtraining, and reshape their goals throughout the season. The Triathlete's Training Diary includes: Coach Friel's introduction to the essential details of keeping a training log. Friel's guide to planning out your season. Season goals, Annual training hours, Weekly training hours 53 undated weekly spreads. Space for every training metric like rest/recovery, weight, workout type, route, distance/time, average heart rate and power, zones, weather, heart rate, RPE, and your custom notes Room for two-a-day workouts. Weekly Summary charts Race Results Summary to log finish times, split times, pre- and post-race nutrition, efforts, and age-group rankings Physiological test results such as VO2max and lactate threshold. Training Grids to graph the data you choose Road and mountain bike measurements with space to note adjustments Your favorite routes and best times Season results summary Race day gear checklist What gets measured gets managed. Add The Triathlete's Training Diary to your program and you'll unlock valuable insights that can help you improve in your sport. Provides a training schedule, exercises, nutritional guidelines, equipment suggestions, and tips on technique for safe and healthy cycling for the middle-aged. Keeping a training diary helps athletes build confidence and stave off threats to performance: burnout, injury, illness, and overtraining. This simple, comprehensive diary makes it easy to record every component of triathlon workouts. Details of each swim, bike, run, crosstraining, or strength workout can be entered, with ample space for notes on the route or other variables. Users can consolidate training data, track progress, and reshape goals throughout the season with this useful book. A perfect companion to any cycling training program, The Cyclist's Training Diary offers an ideal way for you to plan, record, and better understand your workouts and performance. With undated pages for use any time of the year, this diary offers plenty of space for all the objective and subjective performance metrics you might want to track in a smart format that's been carefully designed, tested, and refined by Joe Friel, America's most experienced personal cycling coach. The Cyclist's Training Diary is wirebound to lay flat and flips easily so you can look up past workouts or settle your pre-race nerves by proving to yourself that you've done the work. This paper workout log is simple to use, never

requires a login or password, and can be completely customized to meet your needs for any cycling training schedule. This physical record of your workouts will reveal insights that don't display on an online dashboard. Fully compatible with Joe Friel's best-selling training programs like *The Cyclist's Training Bible* and *Fast After 50*, this diary simplifies the planning and execution of your training for all cycling events: road racing, criteriums, time trials, century rides, charity rides, gran fondos, enduro, gravel grinders, and cyclocross. Strong cyclists know that a training diary is an invaluable tool. Whether they work with a coach or train independently, even elite cyclists keep a training log to hone their feel for performance, consolidate training data in one location, track their progress, monitor for injuries and overtraining, and reshape their goals throughout the season. The *Cyclist's Training Diary* includes: Coach Friel's introduction to the essential details of keeping a training log. Friel's guide to planning out your season. Season goals, Annual training hours, Weekly training hours and summary charts 53 undated weekly spreads. Space for every training metric like workout type, route, and distance/time; heart rate and power; zones and RPE; weather; rest/recovery; weight; and your custom notes Race Results Summary to log finish times, nutrition, efforts, and more Physiological test results such as VO2max and lactate threshold. Training Grids to graph the data you choose Road and mountain bike measurements with space to note adjustments Your favorite segments and best times Season results summary Race day gear checklist What gets measured gets managed. Add *The Cyclist's Training Diary* to your program and you'll unlock valuable insights that can help you improve in your sport. Adapts the author's nutritional program to the needs of athletes in a diet based on natural selection and evolution that promotes weight loss, normalizes blood cholesterol, increases energy levels, and enhances overall fitness. A New York Times bestselling author takes readers inside the Ironman triathlon. As he did so masterfully in his New York Times bestseller, *The Gatekeepers*, Jacques Steinberg creates a compelling portrait of people obsessed with reaching a life-defining goal. In this instance, the target is an Ironman triathlon—a 2.4-mile open-water swim followed by a 112-mile bike ride, then finally a 26-mile marathon run, all of which must be completed in no more than seventeen hours. Steinberg focuses not on the professionals who live off the prize money and sponsorships but on a handful of triathletes who regard the sport as a hobby. Vividly capturing the grueling preparation, the suspense of completing each event of the triathlon, and the spectacular feats of human endurance, Steinberg plumbs the physical and emotional toll as well as the psychological payoff on the participants of the Ford Ironman Arizona 2009. His *You Are an Ironman* is both a riveting sports narrative and a fascinating, behind-the-scenes study of what makes these athletes keep going.. In *Fast-Track Triathlete*, elite triathlon coach Matt Dixon offers his plan of attack for high performance in long-course triathlon—without sacrificing work or life. Developed for busy professionals with demanding schedules, the *Fast-Track Triathlete* program makes your PR possible in Ironman®, Ironman 70.3®, Rev3, and Challenge triathlon in about 10 hours a week. Training for long-course triathlons once demanded 15-20 hours each week—on top of work, family, travel and other time commitments. For many, preparing for long-distance triathlon is more challenging than the race itself. Now *Fast-Track Triathlete* opens the door to your best performance in full- and half-distance triathlons in half the traditional training time. Dixon's laser-focused, effective approach to workouts, recovery, strength and mobility, and nutrition means you can prepare for triathlon's greatest challenges in just 7-10 hours per week for half-distance and 10-12 hours per week for full-distance. *Fast-Track Triathlete* includes • Dixon's complete guide to creating a successful sport and life performance recipe • How to plan out your triathlon training • Scaling workouts for time and fatigue • Training and racing during travel • Executing your swim-bike-run and transitions plan on race day • 10-week off-season training program with key workouts • 14-week pre-season training program with key workouts • 14-week comprehensive race-prep full and half training plans with fully integrated strength and conditioning Dixon's first book, *The Well-Built Triathlete*, revealed his four-tiered approach to success in all triathlon race distances. *Fast-Track Triathlete* turbocharges Dixon's well-built program so even the busiest athletes can achieve their long-distance triathlon dreams without sacrificing so much to achieve them. Provides expertise for triathlon athletes seeking to raise their game by fine-tuning their physique, developing a race strategy, and setting personal goals. *You Are a Badass* for aspiring triathletes: a practical and inspiring guide to getting off the couch and on the trail to race your first -- or 50th -- triathlon When Meredith Atwood first shared her journey from tired, overworked wife and mom to successful triathlete, her story resonated with women everywhere, online at SwimBikeMom.com and in the first edition of *Triathlon for the Every Woman*. Now with her own IRONMAN finishes, experience, and triathlon coaching expertise, Meredith is back with even more wisdom. In this fully revised edition, Atwood not only shares how she went from the couch to an IRONMAN 70.3 triathlon in just over a year, but also shares the latest expertise from coaches, nutritionists, and athletes on each component of the triathlon: swimming, biking, and running. With compact training plans, the most current nutrition advice, updated resources, and the latest information on long-distance racing, this new edition has all you need to make your triathlon goals a reality. Are you thinking about getting into triathlon or doing your first race? Have you finished a couple of races and are keen to improve your time? Do you find the whole sport daunting and confusing? Are you a little intimidated by everybody else who looks like they know what they are doing? This easy to understand and insightful book is packed with practical ways you can improve and it will help you: -Understand the sport of triathlon "what is triathlon and how does it work?" -Develop a training plan together that simplifies your season -Train effectively so you minimise the risk of getting injured -Stop you making the mistakes which cost a lot of time and money -Make you feel confident when you are on the start line -Decide what race length is best for you from sprint to Ironman -Buy the right triathlon kit to suit your ability and your aspirations A personal note from the author: "This book is gathered from years of training and racing but not only from my triathlon experience but from the experience of champions. I have trained with and raced with elite athletes and winners from all over the world but I started not knowing what I was doing and was scared to death when I did my first race. I wish I had this book when I started out. I would have saved myself a lot of heart ache and stress! I wrote this to help all triathlon rookies get over their nerves and enjoy this fantastic sport." "*Triathlon for beginners*" is the start to finish complete guide which covers all the areas of training and racing including: -Where to start - types of races, what you need to know and where to begin -Jargon buster - helping you understand the terms of the sport so you can understand what people are talking about when they say "T1" or "Brick"! -Training rules and techniques -Swimming technique and etiquette -Running technique and how to prevent injury and run faster -Cycling in a pack what to do and what not to do -Transition - how to lay it out, what to bring and how to be effective -Understanding nutrition and why it is key, how best to manage your nutrition and what is best to eat for triathlon training and racing -Race day - what to look out for, how to prepare and what to expect This guide takes you from start to finish so you can feel confident and comfortable when you train and race. Here are some of the comments we have had from readers... I loved this book! I have completed a few triathlons- sprint and Olympic distance. This book really simplified what is important to focus on. There is so much to know and learn that sometimes you feel overwhelmed. It is an easy, entertaining read but packed with good knowledge that made a big difference to my racing. Charlotte Campbell, World Games triathlon gold medallist I wish this was around before! I did a number of Triathlons over the last few years. When I first took it up I had to ask people's advice which at best was disjointed and worst, confusing. I also read some very good stuff on the internet, however this was also disjointed and incomplete. This book would have been ideal, as it puts it all together clearly and concisely. Liam Harrington; sprint triathlete In *Running Rewired*, America's leading endurance sports physical therapist and coach shares a program for runners to become stronger, faster, and more durable. Jay Dicharry distills cutting-edge biomechanical research into 15 workouts any runner can slot into their training program to begin seeing real results in about 6 weeks. For better or worse, your body drives your running form. *Running Rewired* will show you how to shed old injuries, mobility problems, weaknesses and imbalances and rewire your body-brain movement patterns. You'll rebuild your movement and transform your running within one season. Through his work with athletes at REP Lab and top university sports performance clinics, Dicharry has found that strength training alone is inadequate for runners. To develop the four essential movement skills required for faster, safer running, runners must practice better movement as they build strength. In *Running Rewired*, you'll use • 11 self-tests for joint mobility, posture stability, rotation, and alignment • 83 exercises to fix blocks, move with precision, build strength, and improve power • 15 rewire workouts to amplify any training plan from 5K to ultramarathon Dicharry's *Running Rewired* combines the best of real-world coaching and a physical therapy approach to strength and mobility for better running. You'll find your personal best running form and become a faster, more durable runner. This clear and comprehensive book from America's top triathlon coach prepares aspiring triathletes for the challenge of their first tri through a simple, 12-week training plan that requires fewer than five hours a week. *The Triathlon Training Book* is your one-stop reference for training and competing in a triathlon. Find all the essentials you need to start training and improve

your performance: + Clear, customizable training plans for all triathlon distances. + Step-by-step exercises to build your strength. + Incredible illustrations that explain efficiency and speed. + Expert advice on race-day strategy, nutrition, and equipment. + Trustworthy advice on treating common triathlon injuries and maintaining a healthy body. Whether you are a first-timer or a seasoned Ironman veteran, you'll find what you need in *The Triathlon Training Book*. There's even a special performance chapter with detailed anatomical artwork that explains the physiology and body mechanics for swimming, cycling, and running, so you can see what's happening inside your body as you train. Serious triathletes may be the most tech-savvy of all athletes. You have the latest devices and know that data to improve your performance are at hand, but putting it all together can be a daunting, confusing task. Triathlete, coach, researcher, and author Jim Vance maintains that, despite access to the relevant information, most triathletes start a race undertrained or overtrained. That's why he's developed *Triathlon 2.0: Data-Driven Performance Training*, the first program to take advantage of the latest science and technology. *Triathlon 2.0* examines the sport's most popular devices, including cycling power meters, GPS trackers, and heart rate monitors. Capture the most accurate readings, learn what they mean, and, just as important, what they don't. Then, put the numbers to work for you, translating your data into a comprehensive program based on your performance needs and triathlon goals. With *Triathlon 2.0*, you will learn these skills:

- Establish and identify optimal aerobic fitness base.
- Determine the exact number of intervals for the most effective training and quickest recovery.
- Identify performance markers to track training results.
- Develop a tapering plan for peak performance.
- Monitor pace and progress in real time.

If you're serious about maximizing performance, then turn to the only program built around your personal performance data. With *Triathlon 2.0*, the power and plan are in your hands. This all-new *Cyclist's Training Bible* presents the latest discoveries in cycling science, data analysis, daily planning, and skills development to help you create a personal training plan for success. From *Triathlete* magazine - the most popular and extensive source for triathlon information - comes this guidebook of weekly training plans for triathletes of all skill levels. Outlines cutting-edge training techniques that can bolster the effectiveness of a workout, explaining how to use a heart rate monitor as a beneficial self-coaching tool, in a reference that discusses such topics as how to minimize injuries, using gym equipment, and recognizing when to increase and decrease a workout's intensity. Original. Four years ago, Sue Reynolds was morbidly obese at 335 pounds. After being on yo-yo diets almost all her life, she tried one more time without much hope for positive results. But this time was different. She was fed up with not being able to do things because of her size. She was tired of not being able to tie her own shoes, fit in restaurant booths, or walk more than a few feet. She was ready. *The Athlete Inside* follows Reynolds's journey as she lost 200 pounds and found an athlete hiding inside her body. From her first walk to the neighbor's mailbox to finishing sixth at the World Triathlon Championship, Reynolds discovered the joy of conquering fear and pride to find that the best version of herself had been there all along. A world-class triathlete and a grandmother, Reynolds is proof that you can transform your life at any age. Her story is one of hope, tenacity, and faith, as she committed to doing whatever it took to be among the best triathletes in the world. It's a story about a unique intergenerational relationship between Reynolds and the young coach who earned her trust and helped her develop fitness and confidence. It's a story about the power of kindness and the spiritual growth Reynolds experienced as she realized the compassion that surrounded her was the face of God. Ultimately, it's the story of how each of us can discover amazing gifts and talents within ourselves. In *The Power Meter Handbook*, Joe Friel offers cyclists and triathletes a simple user's guide to using a power meter for big performance gains. In simple language, the most trusted coach in endurance sports makes understanding a power meter easy, no advanced degrees or tech savvy required. Cyclists and triathletes will master the basics to reveal how powerful they are. Focusing on their most important data, they'll discover hidden power, refine their pacing, and find out how many matches they can burn on any given day. Once they understand the fundamentals, Friel will show how to apply his proven training approach to gain big performance in road races, time trials, triathlons, and century rides. With *The Power Meter Handbook*, riders will:

- Precisely match their training to their race season
- Push their limits step by step
- Track fitness changes--reliably and accurately
- Peak predictably for key events
- Vastly improve training efficiency

Power meters aren't just for the pros or racers anymore. Now *The Power Meter Handbook* makes it easy for any cyclist or triathlete to find new speed with cycling's most advanced gear. In *The Well-Built Triathlete*, elite triathlon coach Matt Dixon reveals the approach he has used to turn age-group triathletes into elite professionals and champions. Dixon's method breaks new ground in triathlon training, introducing a new, comprehensive approach that builds the whole athlete for stronger performance. Dixon details the four pillars of performance that form the foundation of his highly successful purplepatch fitness program, showing triathletes of all abilities how they can become well-built triathletes and perform better year after year. *The Well-Built Triathlete* does not focus narrowly on workouts and training, but instead gives equal weight to training and workouts, recovery and rest, workout and daily nutrition, and functional strength and mobility. Dixon considers the demands of career and family to prepare athletes to achieve their goals through a realistic, practical ecosystem of stress and recovery. *The Well-Built Triathlete* is Dixon's guide to every aspect of triathlon performance. Chapters on swimming, cycling, and running explain the most effective ways to train for each. His pragmatic approach to stretching, recovery, and effective strength training shows athletes where they can recover valuable time. A purplepatch section shows how triathletes can achieve long streaks of high performance. Dixon's whole-athlete approach to triathlon will help triathletes become greater than the sum of their workouts. By becoming better all-around athletes, well-built triathletes will train and race faster than ever. Joe Friel is the top coach in triathlon and his book *Your First Triathlon* is the best-selling book for beginner triathletes. This clear and comprehensive book makes preparing for sprint and Olympic triathlons simple and stress-free. Joe Friel's practical training plan takes fewer than 5 hours a week, giving aspiring triathletes the confidence and fitness to enjoy their first race. *Your First Triathlon* offers a 12-week training plan for total beginners as well as custom plans for athletes experienced in running, cycling, or swimming. Four easy-to-use plans include achievable swim, bike, run, and optional strength workouts that will gradually but surely build anyone into a triathlete. Joe offers helpful advice to simplify the complexities of the swim-bike-run sport. Even a total novice will learn commonsense tips and tricks to navigate packet pickup, set up a transition area, fuel for race day, finish a stress-free swim, and ensure that race day goes as smoothly as planned. Joe Friel is the coach experienced triathletes trust most. His book *The Triathlete's Training Bible* is the best-selling triathlon training resource and now his trusted advice is available to help beginners enjoy their first triathlon experience. *The Brave Athlete* solves the 13 most common mental conundrums athletes face in their everyday training and in races. You don't have one brain—you have three; your ancient Chimp brain that keeps you alive, your modern Professor brain that navigates the civilized world, and your Computer brain that accesses your memories and runs your habits (good and bad). They fight for control all the time and that's when bad things happen; you get crazy nervous before a race, you choke under pressure, you quit when the going gets tough, you make dumb mistakes, you worry about how you look. What if you could stop the thoughts and feelings you don't want? What if you could feel confident, suffer like a hero, and handle any stress? You can. *The Brave Athlete* from Dr. Simon Marshall and Lesley Paterson will help you take control of your brain so you can train harder, race faster, and better enjoy your sport. Dr. Marshall is a sport psychology expert who trains the brains of elite professional athletes. Paterson is a three-time world champion triathlete and coach. Together, they offer this innovative, brain training guide that is the first to draw from both clinical science and real-world experience with athletes. That means you won't find outdated "positive self-talk" or visualization gimmicks here. No, the set of cutting-edge mental skills revealed in *The Brave Athlete* actually work because they challenge the source of the thoughts and feelings you don't want. *The Brave Athlete* is packed with practical, evidence-based solutions to the most common mental challenges athletes face. Which of these sound like you?

- Why do I have thoughts and feelings I don't want?
- I wish I felt more like an athlete.
- I don't think I can.
- I don't achieve my goals.
- Other athletes seem tougher, happier, and more badass than me.
- I feel fat.
- I don't cope well with injury.
- People are worried about how much I exercise.
- I don't like leaving my comfort zone.
- When the going gets tough, the tough leave me behind.
- I need to harden the f*ck up.
- I keep screwing up.
- I don't handle pressure well.

With *The Brave Athlete: Calm the F*ck Down and Rise to the Occasion*, you can solve these problems to become mentally strong and make your brain your most powerful asset. "A carefully maintained record of training is a great tool for improving racing," writes Joe Friel in the introduction to this cyclist's training diary. He shows how to record daily workout details and how to plan a season. The book includes photos, worksheets, and charts for weight changes and bike measurements. "Joe Friel is arguably the most experienced personal cycling coach in the U.S." -- *Bicycling* Noted mountain bike expert Joe Friel covers every aspect of training, helping rides maximize the experience and minimize the problems. 12 photos. 10 illustrations. 10 charts. 20 tables. Worksheets. RUN

WITH POWER is the groundbreaking guide you need to tap the true potential of your running power meter. From 5K to ultramarathon, a power meter can make you faster—but only if you know how to use it. Just viewing your numbers is not enough; you can only become a faster, stronger, more efficient runner when you know what your key numbers mean for your workouts, races, and your season-long training. In *Run with Power*, TrainingBible coach Jim Vance offers the comprehensive guide you need to find the speed you want. *Run with Power* demystifies the data and vocabulary so you can find and understand your most important numbers. You'll set your Running Power Zones so you can begin training using 8 power-based training plans for 5K, 10K, half-marathon, and marathon. Vance shows you how you can compare wattage, heart rate, pace, and perceived exertion to gain the maximum insight into your performances, how you respond to training, and how you can train more effectively. *Run with Power* will revolutionize how you train and race. Armed with Vance's guidance, you can train more specifically for races, smooth your running technique, accurately measure your fitness, predict a fitness plateau, monitor injuries, know exactly how hard you're training, get more fitness from every workout, recover fully, perfect your tapers, warm up without wasting energy, pace your race on any terrain, know when to open the throttle, and create an unprecedented picture of yourself as an athlete. If you're just glancing at the number on your wrist or computer monitor, you've got a lot more speed potential. Knowledge is power and understanding your power numbers can open the gate to new methods and new PRs. *Run with Power* introduces the use of power meters to the sport of running and will show you how to break through to all-new levels of performance. Key concepts explored in *Run with Power*: 3/9 Test, 30-minute Time Trial Test, Running Functional Threshold Power (rFTPw), Running Functional Threshold Pace (rFTPp), Averaged and Normalized Power (NP), Intensity Factor (IF), Peak Power, Variability Index, Efficiency Index (EI), speed per watt, Vance's Power Zones for Running, Training Stress Score (TSS), and Periodization with Power. Includes 6 testing methods and 8 power-based training schedules and workouts for 5K, 10K, half-marathon, and marathon. Coach Joe Friel is the most trusted name in endurance sports coaching, and his *Cyclist's Training Bible* is the most comprehensive and reliable training resource ever written for cyclists. This new edition of the bestselling book includes all of the latest advances in training and technology. Using this book, cyclists can create a comprehensive, self-coached training plan that is both scientifically proven and shaped around their personal goals. Friel empowers athletes with every detail they need to consider when planning a season, lining up a week of workouts, or preparing to race. This fourth edition includes extensive revisions on the specifics of how to train and what to eat. Friel explains how cyclists can: best gauge intensity with power meters and other new training technology to maximize form and fitness and reduce fatigue; more knowledgeably and accurately make changes to their annual training plan over the course of a season; dramatically build muscular endurance with strength training; improve body composition and recovery with smarter nutrition. With more case studies to draw from and multiple contingency plans for those times when training doesn't progress as planned, *The Cyclist's Training Bible* continues to be the definitive guide to optimal cycling performance. Joe Friel is the world's most trusted triathlon coach and his friendly guide, *Your First Triathlon*, will get you ready for your first sprint or Olympic triathlon feeling strong, confident, and ready for the challenge. Friel has helped hundreds of thousands of people to enjoy the challenges of triathlon with his clear and comprehensive TrainingBible method. *Your First Triathlon* simplifies all the principles of Friel's training approach for newcomers who want a simple, no-nonsense way to train for triathlon. The practical triathlon training plans in *Your First Triathlon* take fewer than 5 hours a week and will build the fitness and confidence you need to enjoy your first event. *Your First Triathlon* offers a 12-week training plan for total beginners as well as custom plans for athletes who have some experience in running, cycling, or swimming. Each triathlon training schedule includes realistic swimming, biking, and running workouts with options to add strength workouts. These simple plans will build anyone into a triathlete. Friel simplifies your triathlon race day with smart tips to navigate your race packet pickup, set up your transition area, fuel for your race, finish your swim without stress or fear, and ensure your race goes smoothly from the moment you wake up until you cross the finish line. Triathlon is a fun and challenging sport that can help you get fit, healthy, and feeling great. *Your First Triathlon* will help you get off to a great start in the swim-bike-run sport.
