American Nations

Aug 15 2022 • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction • Particularly relevant in understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven “nations” that continue to shape North America According to award-winning

journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In American Nations he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to

Yankeedom to El Norte, Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history. **The American Nation** Sep 23 2020 A textbook for

United States history from earliest Indian civilizations to the present, with maps, charts, activities, study questions, and review chapters.

The American Yawp Sep 04 2021 "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their

own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. *The Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The*

American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling

the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that

we confront today. *Prentice Hall the American Nation* Apr 11 2022

The American Nation Feb 15 2020 A textbook for United States history from earliest Indian civilizations to the present, with maps, charts, activities, study questions, and review chapters.

Voices of the American Nation Mar 30 2021 This collection of primary sources includes both classic and lesser-known documents describing the rich mosaic of American life from the pre-contact era to the present day. The sources, both public and private documents ranging

from letters, diary excerpts, stories, novels, to speeches, court cases, and government reports tell the story of American history in the words of those who lived it."

The American Nation Aug 03 2021 REVEL for The American Nation: A History of the United States surveys American history in a way that bridges the present to the past, emphasizing the relevance of history to contemporary readers. By showing students how history connects to the experiences and expectations that mark their lives, authors Mark Carnes and John Garraty bring the study of the American past to

life, and engage students deeply in the course. REVEL is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, REVEL offers an immersive learning experience designed for the way today's students read, think, and learn. Enlivening course content with media interactives and assessments, REVEL empowers educators to increase engagement with the course, and to better connect with students. NOTE: REVEL is a fully digital delivery of Pearson content. This ISBN is for the standalone REVEL access card. In addition to this access card, you

will need a course invite link, provided by your instructor, to register for and use REVEL. Land of Hope Oct 13 2019 For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of

citizenship in American society. The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative

cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as *Land of Hope* brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of *Land of Hope* will find both in its pages.

Nov 13 2019 A textbook tracing the political, social, and economic history of the United States from the discovery of America to the present day.

The Redway School History Jun 01 2021 Excerpt

from *The Redway School History*:
Outlining the Making of the American Nation
There is no better guide by which the future of our country may be discerned than an intelligent study of the past. In a score of years hence the affairs of the nation will be controlled by the young men and women who are now preparing to close the period of school life. To be a good and efficient citizen, it is not enough merely to know the political history of the past; one must be a part of the political affairs of to-day. In other words, every good citizen, whether man or woman, boy or girl, must be an active politician, earnestly

engaged in politics - not the sort of political life that bears the odor of graft and corruption, but the healthful political activity that develops the highest and the best in citizenship. Remember that your political life must stand the test when examined by the searchlight of virtue and the rule of everlasting righteousness. About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the

work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Many readers will be surprised to see that today's arguments about history education follow the culture wars that go back to almost the beginning of the republic. Moreau's writing is engaging, with brilliant flashes of insight, as well as balance and wit." -Gary B. Nash, Director of the National Center for History in the Schools Taking

Frances FitzGerald's textbook study *America Revised* as a point of departure, Joseph Moreau in *Schoolbook Nation* challenges FitzGerald's premise that the 1960s were the beginning of the end of the glory days of American history education. Moreau recounts how in the late twentieth century, cultural commentators such as historian Arthur Schlesinger Jr. and politician Newt Gingrich preached that a new identity crisis had shaken American history in the sixties, and that the grand unified view of our past had given way to various interest groups, who

dismantled the old national narrative while demanding a more "inclusive" curriculum for their children. Moreau discovered, however, that American history, while grand, has never been unified. Delving into more than 100 history books from the last 150 years, the author reveals that the efforts of pressure groups to influence the history curriculum are nearly as old as the mustiest textbook. "For those who would influence textbooks and teaching-Protestant elites in the 1870s, Irish-Americans in the 1920s, and conservative politicians today-the sky has always been falling,"

according to Moreau. Schoolbook Nation offers a history lesson of its own: when the story of the past is written or rewritten, truth is often a victim. With its comprehensive treatment of the subjects of honesty and politics in the teaching of history, this is an essential book on the side of truth in a complex debate.
