Celebrities and movie stars, like everyone else, die from a variety of causes, including diseases (Vol.1 of this book) and cancers (Vol.2 of

this book). When we ask if such causes of death are found encoded in the Torah along with the encoded names of who died from them, we find them all close together in one Torah Matrix (from Gen. 1:1 to 1 Samuel 10:17). For those uninitiated into the Bible Code mystery this might sound outlandish and impossible, but viewing the many Torah Matrices in this book, labeled clearly in black and white as secretly encoded facts staring us in the face might give pause to even the biggest skeptic. Volume 3 of this book shows the Torah-Bible Code Matrices of celebrities and movie stars' deaths

by accidents, murders, overdoses, and suicides - their names found encoded in the larger Torah, some with the year and location of their death; as another e-book through Author House, in mid-2014. Fatal accidents found encoded here range from skiing, car crash, drowning, plane crash, and fire. Their murders are also discovered hidden in the secretly encoded word of Yahweh, along with their troubling overdoses of various drugs, and their tragic suicides. An attempt is made to put the Bible Code mystery in the context of "meaning," in the author's

Conclusion. Bible Code application and method are explained in the Preface, Introduction, and Addendum 1. In memoriam, two original poems by the author are shown in the Epilogue; his poems have appeared in literary journals in 5 countries over forty years. Even though there are only about 50 or fewer personalities identified by name in each of these three volumes, and shown encoded with how and where they died, each Volume could be expanded to hold many thousands of names and pages, one name per page of Matrix revealing those Torah-held secrets hidden for about 3400 years,

and revealed here to the world for the first time in recorded history. "List of the names of persons engaged in the various activities": v. 10, p. 243-257. This book constitutes the refereed proceedings of the 18th Conference of the Canadian Society for Computational Studies of Intelligence, Canadian AI 2005, held in Victoria, Canada in May 2005. The revised full papers and 19 revised short papers presented were carefully reviewed and selected from 135 submission. The papers are organized in topical sections on agents, constraint satisfaction and

search, data mining, knowledge representation and reasoning, machine learning, natural language processing, and reinforcement learning. The techniques of visual, photographic and photoelectric measurement of variable stars are accompanied by specific examples of the type of scientific results that can be and have been obtained. Celebrities and movie stars around the world die from different types of causes, among them diseases (the subject of Volume 1 of this 3 Volume series), cancers (Vol. 2, due out in March 2014), and other causes (Vol. 3: accidents [skiing, car crashes, plane

crashes, fire, and drowning], murders, overdoses, and suicides - all found Bible-encoded with their names; due in April 2014). These are searched for, with the victims' names, using a Bible Code program, and surprisingly all are found encoded, in the Torah, the Hebrew Bible. In this Vol. 1, deadly diseases of various specific kinds are found, along with the names of the celebrities and movie stars who died from them, all in the same Matrix (search result for the Key word, "malignancy").
