When lightning strikes there can only be trouble - as Jessica Mastriani finds out when she and best friend Ruth get caught in a thunderstorm. Not that Jess has ever really avoided trouble before. Instead of cheerleading there are fistfights with the football team and monthlong stints in detention - not that detention doesn't have its good points - like sitting next to Rob - the cutest senior around! But this is trouble with a capital T - this trouble is serious. Because somehow on that long walk home in the thunderstorm, Jess acquired a new found talent. An amazing power that can be used for good. . . or for evil. Sixteen-year-old Jessica Mastriani knew she wasn't going to be able to hide her psychic powers from the U.S. government -- interested in utilizing her special skills for their own devices -- forever. But she never thought that she and Cyrus Krantz, the special agent brought in to "convince" Jess to join his elite team of "specially-gifted" crime solvers, would turn out to have something in common. But when a local boy's disappearance is attributed to a backwoods militai group, Jess's goal -- to find the missing child -- and Dr. Krantz's -- to stop a group of madmen before they kill again -- turn out to be one and the same. Suddenly Jess finds herself working with one enemy in order to stop a far worse one. In an atmosphere of hate and fear, can Jess and Dr. Krantz -- not to mention Jess's would-be boyfriend

Rob -- work together to unite a community and save a life...without losing their own? This long-awaited rich graphic novel is a cross between Thomas Pynchon, Robert Altman and J.R.R. Tolkien and has earned Thurber raves from *The Comics Journal*, *Vice* and *The Fader*. 1-800 MICE is an anthropological study of the imaginary city of Volcano Park (where flying mouse couriers have replaced Federal Express), with a soap-opera fractured narrative and a cast of thousands. Over the course of the story readers meet: Peace Punk, a punker on the verge of bourgeois; Tom Chief: A beat cop with an identity crisis and Groomfiend, a daffy, if driven creature who directs the story. In *The Customer Service Revolution*, DiJulius points out how numerous companies have made Customer service their biggest competitive advantage, are dominating their industries, and have made price irrelevant. As a result of this Customer service revolution, people are being treated differently, better, and in a way like never before. This is a result of how companies and management are treating their employees and how employees are treating each other and the Customer—which ultimately permeates into people's personal lives at home and in their communities. Can the way you run your business or treat your Customers have an effect on the world at large? John DiJulius will show you just that! Drawing on years of experience consulting with the top customer service companies around the world and in his role building his first business, John Robert's Spa, into one of the top 20 salons in the US, DiJulius will show you exactly how to create your very own Customer service revolution and make price

irrelevant. There are a few places screenwriter Lou Calabrese would rather be than crammed into a helicopter with Jack Townsend, star of her claim to fame, Copkiller, and whose ex just ran off with Lou's ex. Talk about uncomfortable. But when, halfway out to the isolated arctic location where Copkiller IV is currently shooting, their pilot turns murderous and their helicopter crashes, Lou realizes her day has just gotten a lot worse. Now, while family and friends back home fret over her disappearance, Lou is on the run in the arctic wilderness with America's sweetheart Jack Townsend and only the contents of her purse, his pockets, and their mutual knowledge of survival movie trivia to keep them alive. Can these two children of Hollywood put aside their differences and make it back home without killing each other? Or much, much worse, actually start to like one another? Ever since Jessica Mastriani was struck by lightning, she's had the ability to find missing people. But her amazing new power came at a cost: national fame and a crushing responsibility that Jess never asked for. The only way she knows how to get back her old life is to lie and say she's lost her gift. But when Jess's classmates start to disappear, she's accused of being involved. Jess's only chance to clear her name is to use her powers. But this will only bring back all the old nightmares: the press, the FBI, everyone who seems to want a piece of her . . . including the guy she once gave her heart to. Time is running out, and it seems as if Jess is the only one who can save her friends. But even if she succeeds, will there be anyone to save her? The most trustworthy source of information available today on

savings and investments, taxes, money management, home ownership and many other personal finance topics. Jess is working at a summer camp when a father begs her to find his daughter but the feds want her, too. JESS MASTRIANI was on vacation when Amber went missing. Most people blame Jess for Amber's brutal slaying, but how could Jess -- even with her psychic ability to find anyone, anywhere -- have stopped the cheerleader from turning up dead, without having known she was even missing? When yet another cheerleader disappears, Jess has a chance to redeem herself. If she can just find the girl before it's too late, maybe Jess will finally have a chance to be part of the in crowd. Except that it's starting to look like being "in" might just get you -- not to mention your loved ones -- killed. So much for popularity. The first four books in Cabot's series--basis for the new Lifetime original series "1-800-MISSING," starring Gloria Reuben--are available again. Surviving a lightning strike, Jessica Mastriani acquires the ability to locate missing people. Reissue. When struck by lightning, Jess Mastriani developed a psychic ability to find missing children--but now she wants the government and the media to think she's lost her power. Where can you hideWhen everyone knows your name?The third and final book the NYT bestselling trilogy.Emerson Watts is on the run: from school, from work, from her family, from her friends, from herself. With everyone she loves furious with her for something she can't explain, and nothing but the live Stark Angel fashion show on New Year's Eve to look forward to, Em's reached the end of her rope. . .what's the point of even going on? But when

she discovers the truth about Nikki's secret, she knows there's only one person she can turn to. A house flipper looking for quick profit. A survivor with a dream. Can two broken hearts find a place to call home? Prepare for romance and fun with the first book in a home-flipping series brought to you by USA Today bestselling author Josie Riviera

When a Miami investor calls in search of prime property flip prospects, North Carolina real estate broker Candee Contando expects to meet a balding, steely-eyed land shark. Turns out the first customer she's had in months is a hot prospect in more ways than one. Except his gaze has fallen on her dream house, a dilapidated Victorian she just bid her last penny on in hopes of creating a safe place for disadvantaged children--like the girl she used to be. Teddy Winchester is adept at negotiating life's curves, but Candee's curves stop him in his tracks. She's a warm spark in the emptiness he's felt since his brother died, leaving him with a beloved nephew to raise. Attraction glows in Candee's eyes as well, but there's also wistfulness as she points out all the reasons an old, tumbledown Victorian doesn't fit into his tried-and-true house-flipping plan. Yet the more he looks at the house--and at her--he begins to think some things are worth the risk. Now if only he can convince her that building a new life often starts with tearing down some walls... When the heart flips, there's no telling where the walls will fall. Books, and the printed word more generally, are aspects of modern life that are all too often taken for granted. Yet the emergence of the book was a process of immense historical importance and heralded the dawning of the epoch of modernity. In this much praised history of that process, Lucien Febvre and Henri-Jean Martin mesh together economic and technological history, sociology and anthropology, as well as the study of modes of consciousness, to root the development of the printed word in the changing social relations and

Therapists who have found this phobia difficult to treat will find everything they need to give their clients success. Anxious flyers who have “tried everything” to no avail can look forward to joining the nearly 10,000 graduates of the SOAR program who now have the whole world open to them as they fly anxiety free wherever they want. This approach begins by explaining how anxiety, claustrophobia, and panic are caused when noises, motions—or even the thought of flying—trigger excessive stress hormones. Then, to stop this problem, Captain Bunn takes the reader step-by-step through exercises that permanently and automatically control these feelings. He also explains how flying works, why it is safe, and teaches flyers how to strategically plan their flight, choose the right airlines, meet the captain, and so on. Through this program, Captain Bunn has helped thousands overcome their fear of flying. Now his book arms readers with the information they need to control their anxiety and fly comfortably.

The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. When your life is over, everything you did will be represented by a single dash between two dates—what will that dash mean for the people you have known and loved? As Joseph Epstein once said, “We do not choose to be born. We do not choose our parents, or the country of our birth. We do not, most of us, choose to die. . . . But within this realm of choicelessness,

we do choose how we live.” And that is what *The Dash* is all about. Beginning with an inspiring poem by Linda Ellis titled “The Dash,” renowned author Mac Anderson then applies his own signature commentary on how the poem motivates us to make certain choices in our lives—choices to ignore the calls of selfishness and instead reach out to others, using our God-given abilities to brighten their days and lighten their loads. After all, at the end of life, how we will be remembered—whether our dash represents a full, joyous life of seeking God’s glory, or merely the space between birth and death—will be entirely up to the people we’ve left behind, the lives we’ve changed.

A breezy, funny Regency romance with an unforgettable heroine—from the bestselling author of *The Princess Diaries* series and many well-loved romances. Nicola Sparks has fallen in love, big time. The object of her dreams is the fabulously rich Lord Sebastian, he of the ice-blue eyes, golden hair, and full-on mastery of the dance floor. To Nicky, Lord S. is a god. But are gods always quite as perfect as they are meant to be? Nicola, sixteen and an orphan, always gets what she wants. She's ready to dive headlong into her first glittering London society season. She's also ready to dive headlong into the arms of handsome and debonair Lord Sebastian. Nicola's dream is a proposal from the viscount—a dream she's about to realize at last! So naturally, Nathaniel Sheridan's insinuations about her fiancé's flawed character annoy her mightily. But when Nicola's natural curiosity gets the best of her, she begins to piece together a few things for herself. To her great surprise, Nicola realizes she's had the wrong viscount all along . . . but

is it too late to make things right? Nicola could feel Lord Sebastian's heart beating. It was the most delightful feeling in the world. Surely it meant that The God liked her. More than simply liked her—loved her even. It had to! It just had to! "In the early modern Iberian book world, as in the European book world more broadly, most works issuing from the presses contained some form of ornamentation. The nineteen contributions presented here cast light on these visual elements—on the production and ownership of printers' materials, and on the frequency with which these materials were exchanged and shared. A third of all items printed in the early modern Iberian world carried no imprint at all; for these items, woodblocks and engravings can assist scholars seeking to identify their place of origin or their date of publication. As importantly, decoration and illustration in early print can also reveal much about the history of the graphic arts and evolving forms of cultural representation"--
