Emergency Medical Services: Clinical Practice and Systems Oversight is the official textbook of the National Association of EMS Physicians™ (NAEMSPTM) National EMS Medical Directors Course and Practicum™. Now paired with a companion website featuring self-assessment exercises, audio and video clips of EMS best practices in action, and more, this essential study aid guides students through the core knowledge they need to successfully complete their training and begin their careers as EMS physicians. Emergency Medical Services: Clinical Practice and Systems Oversight consists of: Volume 1: Clinical Aspects of EMS Volume 2: Medical Oversight of EMS Companion website featuring supportive self-assessment exercises, audio and video clips Course Overview On February 28, 2003, President Bush issued Homeland Security Presidential Directive-5. HSPD-5 directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents. You can also find information about NIMS at <http://www.fema.gov/nims/> This course introduces NIMS and takes approximately three hours to complete. It explains the purpose, principles, key components and benefits of NIMS. The course also contains "Planning Activity" screens giving you an opportunity to complete some planning tasks during this course. The planning activity screens are printable so that you can use them after you complete the course. What will I be able to do when I finish this course? * Describe the key concepts and principles underlying NIMS. * Identify the benefits of using ICS as the national incident management model. * Describe when it is appropriate to institute an Area Command. * Describe when it is appropriate to institute a Multiagency Coordination System. * Describe

the benefits of using a Joint Information System (JIS) for public information. * Identify the ways in which NIMS affects preparedness. * Describe how NIMS affects how resources are managed. * Describe the advantages of common communication and information management systems. * Explain how NIMS influences technology and technology systems. * Describe the purpose of the NIMS Integration Center CEUs: 0.3 Rolfe Humphries (1894-1969), in addition to being an outstanding poet, left a trail as a translator, teacher, critic, and editor. But, as Richard Gillman maintains in his introduction, poetry was the driving force behind these other special skills and interests. Cancer Pain Management, Second Edition will substantially advance pain education. The unique combination of authors -- an educator, a leading practitioner and administrator, and a research scientist -- provides comprehensive, authoritative coverage in addressing this important aspect of cancer care. The contributors, acknowledged experts in their areas, address a wide scope of issues. Educating health care providers to better assess and manage pain and improve patients' and families' coping strategies are primary goals of this book. Developing research-based clinical guidelines and increasing funding for research is also covered. Ethical issues surrounding pain management and health policy implications are also explored. The National Fire Protection Association (NFPA), the International Association of Fire Chiefs (IAFC), and the International Society of Fire Service Instructors (ISFSI) are pleased to bring you Foundations of Instructional Delivery: Fire and Emergency Services Instructor I, Third Edition. Godfrey Nims (d. 1705) may have been of Huguenot origin, according to a family tradition. He was living in Northampton, Massachusetts, by 1667, and settled in Deerfield by 1679. He married twice, to Mary Miller Williams, and Mehitable Smead Hull, both widows with children, by whom he had children of his own. He was survived by four of his children. The two-volume Emergency Medical Services: Clinical Practice and Systems Oversight delivers a thorough foundation upon which to succeed as an EMS medical director and prepare for the NAEMSP National EMS Medical Directors Course and Practicum. Focusing on EMS in the 'real world', the book offers specific management tools that will be useful in the reader's own local EMS system and provides contextual understanding of how EMS functions within the broader emergency care system at a state, local, and national level. The two volumes offer the core knowledge trainees will need to successfully complete their training and begin their career as EMS physicians, regardless of the EMS systems in use in their areas. A companion website rounds out the book's offerings with audio and video

clips of EMS best practice in action. Readers will also benefit from the inclusion of: A thorough introduction to the history of EMS An exploration of EMS airway management, including procedures and challenges, as well as how to manage ventilation, oxygenation, and breathing in patients, including cases of respiratory distress Practical discussions of medical problems, including the challenges posed by the undifferentiated patient, altered mental status, cardiac arrest and dysrhythmias, seizures, stroke, and allergic reactions An examination of EMS systems, structure, and leadership This resource is designed to encourage critical thinking and aid comprehension of the course material. The Student Workbook also includes an answer key that is page referenced to the Fire Investigator: Principles and Practice to NFPA 921 and 1033 text.
