Autonomous Flying Robots Oct 25 2020 The advance in robotics has boosted the application of autonomous vehicles to perform tedious and risky tasks or to be cost-effective substitutes for their - man counterparts. Based on their working environment, a rough classification of the autonomous vehicles would include unmanned aerial vehicles (UAVs), - manned ground vehicles (UGVs), autonomous underwater vehicles (AUVs), and autonomous surface vehicles (ASVs). UAVs, UGVs, AUVs, and ASVs are called UVs (unmanned vehicles) nowadays. In recent decades, the development of - manned autonomous vehicles have been of great interest, and different kinds of autonomous vehicles have been studied and developed all over the world. In particular, UAVs have many applications in emergency situations; humans often cannot come close to a dangerous natural disaster such as an earthquake, a flood, an active volcano, or a nuclear disaster. Since the development of the first UAVs, research efforts have been focused on military applications. Recently, however, demand has arisen for UAVs such as aero-robots and flying robots that can be used in emergency situations and in industrial applications. Among the wide variety of UAVs that have been developed, small-scale HUAVs (helicopter-based UAVs) have the ability to take off and land vertically as well as the ability to cruise in flight, but their most important capability is hovering. Hovering at a point enables us to make more effective observations of a target. Furthermore, small-scale HUAVs offer the advantages of low cost and easy operation.

Poster Girl Oct 13 2019 Beccy Cole's inspirational memoir from the heart of Australian country music. Beccy Cole has country music in her blood. Daughter of a country music star, Carole Sturtzel, she is one of the most popular country singer-songwriters in Australia today. This is the story of her life - in her own words. At fourteen, Beccy was performing in her mother's group, Wild Oats. By her late teens, Beccy had teamed up with the Dead Ringer Band - Kasey Chambers' family band - and had attracted the attention of the country music world by winning the Star Maker quest: the same award that started the careers of Keith Urban, Lee Kernaghan, James Blundell and Gina Jeffreys. It was just the first of many awards and accolades for this multitalented woman with a big heart. With refreshing candour, Beccy shares her story: leaving everything she knew to pursue her dream, making a name for herself with her own band; her marriage and motherhood; her subsequent divorce, becoming a single mother and maintaining the nurturing love of family. Performing for the Australian troops in Afghanistan. Coming out, and what it has meant for her and her fans. Taking control of her own life - and finding love. Heartfelt and honest, Poster Girl is the inspirational memoir of a strong woman who epitomises the authentic spirit of country music, and of Australia.

Unmanned Rotorcraft Systems Jun 01 2021 Unmanned Rotorcraft Systems explores the research and development of fully-functional miniature UAV (unmanned aerial vehicle) rotorcraft, and provides a complete treatment of the design of autonomous miniature rotorcraft UAVs. The unmanned system is an integration of advanced technologies developed in communications, computing, and control areas, and is an excellent testing ground for trialing and implementing modern control techniques. Included are detailed expositions of systematic hardware construction, software systems integration, aerodynamic modeling; and automatic flight control system design. Emphasis is placed on the cooperative control and flight formation of multiple UAVs, vision-based ground target tracking, and landing on moving platforms. Other issues such as the development of GPS-less indoor micro aerial vehicles and vision-based navigation are also discussed in depth: utilizing the vision-based system for accomplishing ground target tracking, attacking and landing, cooperative control and flight formation of multiple unmanned rotorcraft; and future research directions on the related areas.

The Sobbin' Women Nov 13 2019 Thank you for checking out this book by Theophania Publishing. We appreciate your business and look forward to serving you soon. We have thousands of titles available, and we invite you to search for us by name, contact us via our website, or download our most recent catalogues. THEY came over the Pass one day in one big wagon-all ten of them-man and woman and hired girl and seven big boy children, from the nine-year-old who walked by the team to the baby in arms. Or so the story runs-it was in the early days of settlement and the town had never heard of the Sobbin' Women then. But it opened its eyes one day, and there were the Pontipees. They were there but they didn't stay long-just time enough to buy meal and get a new shoe for the lead horse. You couldn't call them unsociable, exactly-they seemed to be sociable enough among themselves. But you could tell, somehow, from the look of them, that they weren't going to settle on ground other people had cleared. They were all high-colored and dark-haired-handsome with a wilderness handsomeness-and when you got them all together, they looked more like a tribe or a nation than an ordinary family. I don't know how they gave folks that feeling, but they did. Yes, even the baby, when the town women tried to handle him. He was a fine, healthy baby, but they said it was like trying to pet a young raccoon. Well, that was all there was to it, at the start. They paid for what they bought in good money and drove on up into Sobbin' Women Valley-only it wasn't called Sobbin' Women Valley then. And pretty soon, there was smoke from a chimney there that hadn't been there before. But you know what town gossip is when it gets started. The Pontipees were willing enough to let other folks alone-in fact, that was what they wanted. But, because it was what they wanted, the town couldn't see why they wanted it. Towns get that way, sometimes.

Lutie McFee's history has taught her to avoid attachments...to people, to places, and to almost everything. With her mother long dead and her father long gone to find his fortune in Las Vegas, 15-year-old Lutie lives in the god-forsaken town of Spearfish, South Dakota with her twelve-year-old brother, Fate, and Floy Satterfield, the 300-pound ex-girlfriend of her father. While Lutie shoplifts for kicks, Fate spends most of his time reading, watching weird TV shows and worrying about global warming and the endangerment of pandas. As if their life is not dismal enough, one day, while shopping in their local Wal-Mart, Floy keels over and the two motherless kids are suddenly faced with the choice of becoming wards of the state or hightailing it out of town in Floy's old Pontiac. Dr. Miriam Stoppard writes about the feelings that expectant parents experience during the first, second and third trimesters and promotes the significance of rites of passage through pregnancy, from adjusting to the changes that parenthood brings to celebrating your future as a family.
