Minerals Yearbook Mar 08 2021 This volume, covering metals and minerals, contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information, plus a statistical summary.

Jimmy Carter and the Birth of the Marathon Media Campaign Jun 22 2022 With the rise of Jimmy Carter, a former Georgia governor and a relative newcomer to national politics, the 1976 presidential election proved a transformative moment in U.S. history, heralding a change in terms of how candidates run for public office and how the news media cover their campaigns. Amber Roessner 's Jimmy Carter and the Birth of the Marathon Media Campaign chronicles a change in the negotiation of political image-craft and the role it played in Carter ' s meteoric rise to the presidency. She contends that Carter ' s underdog victory signaled a transition from an older form of party politics focused on issues and platforms to a newer brand of personality politics driven by the manufacture of a political image. Roessner offers a new perspective on the production and consumption of media images of the peanut farmer from Plains who became the thirty-ninth president of the United States.

Carter ' s miraculous win transpired in part because of carefully cultivated publicity and advertising strategies that informed his official political persona as it evolved throughout the Democratic primary and general-election campaigns. To understand how media relations helped shape the first post-Watergate presidential election, Roessner examines the practices and working conditions of the community of political reporters, public relations agents, and advertising specialists associated with the Carter bid. She draws on materials from campaign files and strategic memoranda; radio and TV advertisements; news and entertainment broadcasts; newspaper and magazine coverage; and recent interviews with Carter, prominent members of his campaign staff, and over a dozen journalists who reported on the 1976 election and his presidency. With its focus on the inner workings of the bicentennial election, *Jimmy Carter and the Birth of the Marathon Media Campaign* offers an incisive view of the transition from the yearlong to the permanent campaign, from New Deal progressivism to New Right conservatism, from issues to soundbites, and from objective news analysis to partisan commentary.

The Return of the Cold War Nov 27 2022 This book examines the crisis in Ukraine, tracing its development and analysing the factors which lie behind it. It discusses above all how the two sides have engaged in political posturing, accusations, escalating sanctions and further escalating threats, arguing that the ease with which both sides have reverted to a Cold War mentality demonstrates that the Cold War belief systems never really disappeared, and that the hopes raised in the aftermath of the collapse of the Soviet Union for a new era in East-West relations were misplaced. The book pays special attention to the often ignored origins of the crisis within Ukraine itself, and the permanent damage caused by the fact that Ukrainians are killing Ukrainians in the eastern parts of the country. It also assesses why Cold War belief systems have re-emerged so easily, and concludes by considering the likely long-term ramifications of the crisis, arguing that the deep-rooted lack of trust makes the possibility of compromise even harder than in the original Cold War.

The Changing Constitution Feb 25 2020 *The Changing Constitution* provides concise, scholarly and thought-provoking essays on the key issues surrounding the UK's constitutional development, and the current debates around reform.

Report of the United Nations Joint Staff Pension Board Oct 03 2020 This is the official report of the United Nations Joint Staff Pension Board on its sixty-fifth session for the period of 26 July to 3 August 2018.

Text and Materials on the Criminal Justice Process Nov 23 2019 Highlighting key issues in Criminal Justice that students need to consider, the Fifth Edition of this popular text contains a wide and varied selection of materials which help to explain the evolution of the criminal justice process in England and Wales since the early 1990s. Statutes, case law, empirical research and official and unofficial reports, as well as theoretical perspectives and academic comment are woven together and contextualized by the accompanying narrative to provide an authoritative account of the recent development of the criminal justice system. Fully updated, this Fifth Edition explores the issues around: • the introduction of Police and Crime Commissioners; • the contracting out of probation services; • the significant reforms to legal aid funding; • the challenges to trial by jury posed by the internet. This book also helpfully directs students to further reading by chapter to provide

next steps for research. Written in an accessible style, *Text and Materials on the Criminal Justice Process* is a valuable resource for students of criminal justice.

Remote Sensing of Volcanic Processes and Risk Oct 27 2022 Remote sensing data and methods are increasingly being implemented in assessments of volcanic processes and risk. This happens thanks to their capability to provide a spectrum of observation and measurement opportunities to accurately sense the dynamics, magnitude, frequency, and impacts of volcanic activity. This book includes research papers on the use of satellite, aerial, and ground-based remote sensing to detect thermal features and anomalies, investigate lava and pyroclastic flows, predict the flow path of lahars, measure gas emissions and plumes, and estimate ground deformation. The multi-disciplinary character of the approaches employed for volcano monitoring and the combination of a variety of sensor types, platforms, and methods that come out from the papers testify to the current scientific and technology trends toward multi-data and multi-sensor monitoring solutions. The added value of the papers lies in the demonstration of how remote sensing can improve our knowledge of volcanoes that pose a threat to local communities; back-analysis and critical revision of recent volcanic eruptions and unrest periods; and improvement of modeling and prediction methods. Therefore, the selected case studies also demonstrate the societal impact that this scientific discipline can potentially have on volcanic hazard and risk management.

Western Mainstream Media and the Ukraine Crisis Dec 05 2020 This book explores contemporary propaganda and mainstream Western news media, with reference to the Ukraine crisis. It examines Western media narratives of the immediate causes of the crisis, the respective roles of those who participated in or otherwise supported the demonstrations of 2013–2014 – including US-backed NGOs and rightist militia – and the legitimacy, or otherwise, of the destabilization of the democratically elected Yanukovich government. It considers how the crisis was contextualized with reference to broader themes of competition for power over Eurasia and the Washington Consensus. It assesses accounts of the role of Russia and of ethnic Russian Ukrainians in Crimea, Odessa and the Donbass and traces how Western mainstream media went out of their way to demonize Vladimir Putin. The book deconstructs prevailing Western narratives as to the reasons for the shooting down of Malaysian Airways flight MH17 in July 2014, and counters Western media concentration on the issue of culpability for the attack with an alternative narrative of egregious failure to close down civilian air space over war zones. From analysis of these discourses, the book identifies principles of post-2001 Western conflict propaganda as these appeared to play out in Ukraine. This book will be of much interest to students of propaganda, media and communication studies, Russian and Eastern European politics, security studies and IR.

The G20 and the Future of International Economic Governance Jun 30 2020 The G20 needs to be bold and pragmatic if it is to deal effectively with the global economy 's big issues. Since its establishment in 1999, the G20 has become a key international forum. But it suffers from inherent design flaws and remains a work in progress. When Australia began its presidency of the 2014 summit in Brisbane, many commentators suggested that Australia 's chairing of the G20 would reinvigorate it. This timely book looks at what was achieved at the Brisbane Summit and what has

happened in its wake. Crucially, it explores what role the G20 could and should play in dealing with such pressing global issues as international taxation, trade, energy and climate change. Expert contributors, many of them former inside players, assess the impact of the summit in the context of the year's broader geopolitical challenges, including Russia's temporary expulsion from the G8 and the failure of the US to ratify its governance reforms to the IMF. Taking stock, contributors question the effectiveness of the G20, and identify the reforms that are needed if it is to offer strong leadership in an integrated global economy. Together they ask, what is the future of the G20 and other 'Gs'?

Political Handbook of the World 2020-2021 Jan 06 2021 The Political Handbook of the World by Tom Lansford provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other reference guide. The updated 2020-2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup. Compiling in one place more than 200 entries on countries and territories throughout the world, this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system. The Political Handbook of the World 2020-2021 also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 30 intergovernmental organizations and UN agencies. And this update will aim to include coverage of current events, issues, crises, and controversies from the course of the last two years.

CTA - Awareness (FA2012) Study Text Feb 28 2023 A Core Study Text for the CTA Qualification

Global Perspectives on Risk Management and Accounting in the Public Sector Aug 01 2020 The effects of recent economic and financial crises have reached an international scale; a number of different nations have experienced the fallout of these events, calling into question issues of accountability and reform in public management. Global Perspectives on Risk Management and Accounting in the Public Sector is a pivotal reference source for the latest research on current developments and future directions of the regulation, financial management, and sustainability of public institutions. Featuring discussions on risk assessment, transparency, and information disclosure, this book is ideally designed for regulatory authorities, researchers, managers, and professionals working in the public domain.

Contingent Convertible Bonds, Corporate Hybrid Securities and Preferred Shares Apr 08 2021 This book is a comprehensive guide to the new generation of hybrid securities: subordinated and perpetual bonds with deferrable coupon first issued around 2003, and the youngest member of the hybrids family named CoCos (contingent convertibles) being a product of Basel III or European Union CRD IV regime (2014). Contingent capital constitutes a contractual recapitalization mechanism for troubled financial institutions. An increasing number of European banks have issued CoCo bonds in order to bolster their capital ratios. Following the EU pattern, CoCos issues have become increasingly popular within banks in Asia and the Pacific. The EU regulatory treatment of the contingent convertibles issued by banks and insurers together with bank bail-in instruments is at the forefront of the book. Furthermore, the book provides an overview of hybrids pricing and risk

assessment approach and covers the non-voting preferred stocks as another hybrids class.

2021-22 UPPCS General Studies & C-SAT Oct 15 2021 2021-22 UPPCS General Studies & C-SAT Previous Solved Papers

The Report: Bahrain 2015 May 10 2021 The kingdom rose to prominence as the region ' s financial hub in the 1970s and today, despite increasing competition from its neighbours, it is bolstering this position as it leads the way in the Islamic banking segment, hosting the highest concentration of Islamic financial institutions globally. The takaful segment represents one of the fastest growing segments in Bahrain ' s insurance sector, itself boasting the highest insurance penetration rate in the GCC. Meanwhile a rising population is driving housing and transport infrastructure in the country with private contractors benefitting as a result. Looking forward, these expansions to rail and air links should boost the kingdom ' s tourism offering, with tourism ' s contribution to GDP expected to grow significantly over the next 10 years, while elsewhere the projects will drive Bahrain ' s role as a regional logistics centre, with the kingdom aiming to position itself as a key entry point to the GCC moving forward.

Budget 2013 Sep 01 2020 Budget 2013 announces further detail on the Government's deficit reduction plans, new steps to ensure monetary policy continues to support the economy (including a new remit for the Monetary Policy Committee), and further measures to ease the long-term pressure on the public finances. Central government departmental expenditure limits will be reduced by £ 1.1 billion in 2013-14 and £ 1.2 billion in 2014-15, with the funds used to support housing. Schools and health budgets remain unchanged. Public sector pay awards will be limited to an average of 1 per cent. Budget 2013 is fiscally neutral. Action to promote growth includes: a reduction in corporation tax by 1 per cent in April 2015; from April 2014 giving businesses and charities an entitlement to a £ 2000 employment allowance per year towards their employer National Insurance contributions, designed particularly to help small businesses; capital spending increase by £ 3 billion a year; providing £ 1.6 funding to support strategies in 11 key sectors; creation of a Single Local Growth Fund; introduce a new housing scheme, Help to Buy comprising an extension of the First Buy scheme and mortgage guarantee for lenders who offer mortgages to people with a deposit of between 5 and 20 per cent on homes with a value up to £ 600,000; reducing the qualifying period for Right to Buy; doubling the existing affordable homes guarantee programme, to support a further 15,000 affordable homes in England by 2015. Other measures include: first £ 10,000 of income to be tax free in 2014-15; cancellation of planned fuel duty increases; a new tax-free Childcare Scheme and increased child support in Universal Credit; implement the £ 72,000 cap on reasonable social care costs; reduce beer duty by 2 per cent; crackdown on tax avoidance, with the Isle of Man, Guernsey and Jersey entering into tax information exchange agreements.

Understand Tax for Small Businesses: Teach Yourself Ebook Epub May 22 2022 The recession and the change of government have seen many changes in the British tax system which affect small businesses. Fully updated for the 2013 tax year and beyond, this trusted and bestselling guide will help you steer your small business through the bureaucratic hoops. Tax matters for small businesses, because they must

pay it correctly in order to stay legal, and they must pay it efficiently in order to stay competitive. This book, written by a chartered accountant who has helped small businesses for twenty years, helps you to do both.

Economic Policy Reforms 2015 Going for Growth Apr 28 2020 This publication is the OECD ' s annual report highlighting developments in structural policies in OECD countries and the key emerging economies.

Baily's Magazine of Sports and Pastimes Jul 24 2022

Retrofitting Cities for Tomorrow's World Jun 10 2021 A groundbreaking exploration of the most promising new ideas for creating the sustainable cities of tomorrow The culmination of a four-year collaborative research project undertaken by leading UK universities, in partnership with city authorities, prominent architecture firms, and major international consultants, Retrofitting Cities for Tomorrow's World explores the theoretical and practical aspects of the transition towards sustainability in the built environment that will occur in the years ahead. The emphasis throughout is on emerging systems innovations and bold new ways of imagining and re-imagining urban retrofitting, set within the context of ' futures-based ' thinking. The concept of urban retrofitting has gained prominence within both the research and policy arenas in recent years. While cities are often viewed as a source of environmental stress and resource depletion they are also hubs of learning and innovation offering enormous potential for scaling up technological responses. But city-level action will require a major shift in thinking and a scaling up of positive responses to climate change and the associated threats of environmental and social degradation. Clearly the time has come for a more coordinated, planned, and strategic approach that will allow cities to transition to a sustainable future. This book summarizes many of the best new ideas currently in play on how to achieve those goals. Reviews the most promising ideas for how to approach planning and coordinating a more sustainable urban future by 2050 through retrofitting existing structures Explores how cities need to govern for urban retrofit and how future urban transitions and pathways can be managed, modeled and navigated Offers interdisciplinary insights from international contributors from both the academic and professional spheres Develops a rigorous conceptual framework for analyzing existing challenges and fostering innovative ways of addressing those challenges Retrofitting Cities for Tomorrow's World is must-reading for academic researchers, including postgraduates insustainability, urban planning, environmental studies, economics, among other fields. It is also an important source of fresh ideas and inspiration for town planners, developers, policy advisors, and consultants working within the field of sustainability, energy, and the urban environment.

Autophagy in plants and algae Nov 15 2021 Autophagy (also known as macroautophagy) is an evolutionarily conserved process by which cytoplasmic components are nonselectively enclosed within a double-membrane vesicle known as the autophagosome and delivered to the vacuole for degradation of toxic components and recycling of needed nutrients. This catabolic process is required for the adequate adaptation and response of the cell, and correspondingly the whole organism, to different types of stress including nutrient starvation or oxidative damage. Autophagy has been extensively investigated in yeasts and mammals but the identification of autophagy-related (ATG) genes in plant and algal genomes together with the

characterization of autophagy-deficient mutants in plants have revealed that this process is structurally and functionally conserved in photosynthetic eukaryotes. Recent studies have demonstrated that autophagy is active at a basal level under normal growth in plants and is upregulated during senescence and in response to nutrient limitation, oxidative stress, salt and drought conditions and pathogen attack. Autophagy was initially considered as a non-selective pathway, but numerous observations mainly obtained in yeasts revealed that autophagy can also selectively eliminate specific proteins, protein complexes and organelles. Interestingly, several types of selective autophagy appear to be also conserved in plants, and the degradation of protein aggregates through specific adaptors or the delivery of chloroplast material to the vacuole via autophagy has been reported. This research topic aims to gather recent progress on different aspects of autophagy in plants and algae. We welcome all types of articles including original research, methods, opinions and reviews that provide new insights about the autophagy process and its regulation.

Seismological Journal of Japan Feb 16 2022

Budget and Economic Outlook Mar 27 2020 Reports on the state of the United States economy and the Federal budget.

Shadow Banking in China Nov 03 2020 An authoritative guide to the rise of Chinese shadow banking and its systemic implications Shadow Banking in China examines this rapidly growing sector in the Chinese economy, and what it means for your investments. Written by two world-class experts in Chinese banking, including the Chief Advisor to the China Banking Regulatory Commission and former Chairman of the Securities and Futures Commission in Hong Kong, this book is unique in providing true, first-hand perspectives from authorities within the world's largest economy. There is little widely-available information on China's shadow banking developments, and much of it is rife with disparate data, inaccuracies and overblown risks due to definitional and measurement differences. This book clears the confusion by supplying accurate information, on-the-ground context and invaluable national balance sheet analysis you won't find anywhere else. Shadow banking has grown to be a key source of credit in China, and a major component of the economy. This book serves as a primer for analysts and investors seeking real, useful information about the sector to better inform investment decisions. Discover what's driving the growth of shadow banking in China Learn the truth about both real and inflated risks Dig into popular rhetoric and clarify common misconceptions Access valuable data previously not published in English Despite shadow banking's critical influence on the Chinese economy, there have been very few official studies and even fewer books written on the subject. Understanding China's present-day economy and forecasting its future requires an in-depth understanding of shadow banking and its inter-relationship with the banking system and other sectors. Shadow Banking in China provides authoritative reference that will prove valuable to anyone with financial interests in China.

Muzzling the Bear Sep 13 2021 Russia has once again positioned itself as an adversary of the West and issued a new challenge to European security at its borders. It is also ideologically challenging the Western model of political and economic liberalism. How the EU responds to this challenge might define Europe for the foreseeable future. Designing strategies to counter Russian propaganda in Europe

should be one of the central components of Europe ' s response to Russia ' s challenge.

OECD Pensions Outlook 2014 Jan 18 2022 This book looks at pension reform, the role of private pensions and retirement savings. Population ageing and longevity risk is examined as are the means of increasing coverage and providing automatic enrolment.

Czech Republic Jul 12 2021 The economy is growing strongly on account of improving domestic demand and robust exports. Fiscal policy has been supportive of the recovery and the authorities ' medium-term fiscal objective is appropriate, but fiscal framework legislation that would anchor policy is yet to be approved. The central bank ' s use of an exchange rate floor as an additional instrument to achieve its inflation objective, in the context of the inflation- targeting framework, has helped stem deflationary pressures, but inflation is still well below target. The financial system is sound and resilient to shocks. The challenge for the authorities is to safeguard macroeconomic stability and create conditions for strong and sustainable growth. Policy recommendations. • Fiscal policy. Maintain a supportive fiscal stance this year, but embark on a modest and very gradual fiscal consolidation thereafter, consistent with the medium-term deficit objective. Embed this objective in a comprehensive framework to enhance its effectiveness in anchoring fiscal policy. Improve budget composition, with higher capital spending to address infrastructure needs offset by efficiency gains in current expenditure and improved revenue administration. • Monetary policy. Continue to focus on inflation targeting in policymaking and communication, and maintain supportive monetary conditions until deflation risks recede and inflation expectations become entrenched around the inflation target. Consider carefully the timing and mechanics of the eventual normalization of monetary policy. • Financial sector. Remain vigilant and be ready to address possible risks to financial stability. • Structural reforms. Remove impediments to higher potential growth, including through policies to increase labor market participation of certain segments of the population, enhance investment in human and physical capital, and improve the business climate.

The Political Economy of Russian Aluminium May 29 2020 This book addresses how the progress of the Russian aluminium industry, which has developed into an important global actor, has been influenced by the interaction of global market forces and the evolution of the Russian political system. After the collapse of the Soviet Union, Russian aluminium producers needed to adapt to changing framework conditions, both with regards to the global aluminium market and in Russia. Examining the most important changes in the organization of the global aluminium trade – the reorganization and consolidation of Russian aluminium industry and its ' oligarchization ' – Godzimirski charts the evolution of the relationship between political and economic power in Russia, and the impact that this development has had on survival and adaptation strategies of key aluminium players in the country.

2 Jan 30 2023 A Core Study Text for the ATT Qualification

Between Postcolonialism and Equal Partnership Apr 20 2022 French interventionism in African countries often faces accusation of postcolonialism. Although President Hollande announced that France would build equal relations towards African states, he decided to intervene in Mali and the Central African Republic (CAR). Contributing to understandings of France's Africa policy, this thesis

compares the legitimization discourse of French military operations in Mali and the CAR. It provides new findings by examining postcolonial legitimization strategies as well as contrasting strategies based on equal partnership through a qualitative content analysis.

Reports of International Arbitral Awards/Recueil des sentences arbitrales Oct 22 2019 This publication is a collection of international awards or decisions rendered between States, including cases involving espousing or respondent governments on behalf of individual claimants. This volume reproduces the awards in two arbitration cases, namely, the Bay of Bengal Maritime Boundary Arbitration, between Bangladesh and India, and the case between the Netherlands and the Russian Federation in the matter of the Arctic Sunrise.

Difficult Cases in Primary Care Aug 13 2021 In many paediatric cases the definitive diagnosis may not be made in the primary care setting, but this is where suspicions are often raised. General Practitioners are, therefore, required to maintain a breadth of knowledge covering the specialty. This invaluable guide outlines a case scenario followed by a highly detailed explanation of the condition and its management, presenting the symptoms in a way that are likely to be encountered in general practice.

Indian Labour Journal Dec 17 2021

Nuclear Power Plant Development Mar 20 2022 Nuclear Power Plant Development covers the intricacies of developing a nuclear power plant project from a construction and legal standpoint. It deals with structuring, drafting, and negotiating a wide range of standard and specialised contracts relating to the development of nuclear power-generation projects and also covers the other forms of power-generating facilities. It covers the forms of contract, the law involved internationally, and potential areas of pitfalls and how to avoid them in a systematic format covering various forms of projects. It is suitable for solicitors and barristers involved in the contracting for such facilities and the handling of litigation related to them, government officials involved in the commissioning and development of nuclear facilities for regional governments, and engineers and contractors involved in the actual work of design and contract administration and dispute resolution.

Middle East and North Africa Quarterly Economic Brief, January 2014 Dec 29 2022 Ongoing regional tensions, together with a challenging (albeit slightly improving) external environment, have hit the economies of the Middle East and North Africa (MENA) region hard. Economic growth is slowing, fiscal buffers are depleting, unemployment is rising, and inflation is mounting in seven of the region ' s most vulnerable economies-- Egypt, Tunisia, Iran, Lebanon, Jordan, Yemen and Libya. Short-term policy actions such as increasing public sector wages and subsidies—aimed at reducing social tensions--exacerbate the situation, which is driven by long-standing structural weaknesses, including labor market rigidities, complicated and opaque regulations, infrastructure deficiencies, regressive and inefficient subsidies, and inadequate social safety nets. While these countries face an unstable political and macroeconomic environment, the growth slowdown after the Arab Spring creates a unique opportunity to address these structural problems to both create fiscal space and restructure the economy towards job creation and inclusive growth.

Agricultural price evolution in drought versus non-drought affected areas in

Ethiopia Feb 04 2021 We analyze the evolution of crop and livestock producer prices and wages of unskilled laborers in Ethiopia between January 2014 and January 2017 to evaluate the effect of El Niño triggered droughts – which started in 2015 – that massively impacted parts of the country. The analyses reveal no evidence of widespread adverse price effects of the drought in cereal and labor markets. Real prices of major cereals were lower in January 2017 compared to three years earlier, especially for maize, sorghum, and wheat – the crops that are the major source of calories in areas that were most hit by drought. The decline in the cost of cereals in the food basket in January 2017 compared to three years earlier was estimated at 13.3 percent at the national level. Moreover, this decline in cereal costs was highest in areas most affected by the drought, possibly indicating the effect of major cereal imports and food aid directed to these areas. Considering crop and livestock prices jointly, the analysis reveals that livestock-cereal terms of trade improved. This is mainly due to the fact that although livestock prices declined during this period, as is usually seen in droughts, this decline was less than the decline in prices of cereals in such areas. The fluctuating behavior of cereal prices since January 2015 strikingly contrasts with the El Niño triggered major drought during 1997/98 in Ethiopia. During that period, cereal production declined by 25 percent compared to the year before, with significant increases in the real price of cereals, ranging between 15 and 45 percent. In contrast, in 2016 real cereal prices declined, which appears consistent with the relatively larger cereal imports and lower impacts of the drought on national cereal production in 2015/16.

Romania: First and Second Reviews Under the Stand-By Arrangement and Request for Waiver of Nonobservance of a Performance Criterion, Modification of Program Conditionality, and Rephasing of the Availability Dates of Purchases; Staff Report; Press Release; and Statement by the Executive Director for Romania Sep 25 2022 This first and second reviews under the Stand-By-Arrangement analyzes Ex Post Evaluation of exceptional access for Romania. Efforts are needed to strengthen monetary policy transmission. The banking system remains well capitalized, but the authorities need to accelerate the resolution of nonperforming loans and closely monitor risks from parent bank deleveraging. The Romanian authorities continue their efforts to reach the goals of a broad structural agenda, with a focus on structural reforms in the energy, transport and healthcare sectors, and continue the reform of the state-owned enterprises.

Kurukshetra August 2021 (English) Dec 25 2019 A monthly published in Hindi and English. The journal is devoted to all aspects of rural reconstruction and village democracy. The journal carries educative and informative articles on rural development and is useful for scholars, academicians and students preparing for civil services and other competitive examinations.

International Gear Conference 2014: 26th-28th August 2014, Lyon Aug 25 2022 This book presents papers from the International Gear Conference 2014, held in Lyon, 26th-28th August 2014. Mechanical transmission components such as gears, rolling element bearings, CVTs, belts and chains are present in every industrial sector and over recent years, increasing competitive pressure and environmental concerns have provided an impetus for cleaner, more efficient and quieter units.

Moreover, the emergence of relatively new applications such as wind turbines, hybrid transmissions and jet engines has led to even more severe constraints. The main objective of this conference is to provide a forum for the most recent advances, addressing the challenges in modern mechanical transmissions. The conference proceedings address all aspects of gear and power transmission technology and range of applications (aerospace, automotive, wind turbine, and others) including topical issues such as power losses and efficiency, gear vibrations and noise, lubrication, contact failures, tribo-dynamics and nano transmissions. A truly international contribution with more than 120 papers from all over the world A judicious balance between fundamental research and industrial concerns Participation of the most respected international experts in the field of gearing A wide range of applications in terms of size, power, speed, and industrial sector
