"Contemporary topics 1 gives students practice in the skills they need for academic success."--Back cover of book. For lower-intermediate to intermediate students who wish to improve their listening skills in English. Suitable for classroom use, or for self study. Includes 28 units covering a wide range of topics and situations and tasks for active listening, to build skills and confidence. Face the Issues: Intermediate Listening and Critical Thinking Skills, Third Edition, by Carol Numrich, in cooperation with NPR®, helps intermediate students develop critical thinking skills as they gain insight into American attitudes and values. Each thought-provoking unit is based on an authentic radio broadcast from National Public Radio®. Students develop essential listening strategies such as predicting, looking at language, understanding main ideas and points of view, and focusing on details. Language and concepts are integrated through follow-up critical thinking activities including discussion, debate, values clarification, survey, role play, case study, interview, and simulation. Audio CDs are available for this title. The third edition features six new units on topical issues such as beauty, art, obesity, gender roles, and the environment. In addition, pronunciation and inference activities have been added to every unit. Issues, Third Edition This intermediate text offers a rigorous, academically-focused listening program centered around a series of high-interest lectures. It is premised on the notion that second language learners must develop a much broader competency in listening comprehension than in speaking, since the listener has little or no control over the vocabulary, speech rate, or content used by the speaker. A new classroom course based on unscripted and authentic listening materials Real Lives, Real Listening will teach students vital skills they need to listen more effectively to English, however it is spoken. Through authentic recordings the course exposes students to the grammatical structures and lexis which are used most frequently in spoken English throughout the world. This new edition from Collins combines all three topics into one book. \* MP3 CD with authentic interviews featuring native and non-native speakers of English \* detailed comprehension and practice exercises \* includes information on simplification, linking, elision and weak forms \* teacher's notes and answer keys available at [www.collinselt.com](http://www.collinselt.com) Real Lives, Real Listening will boost students' confidence and raise their awareness of the differences between spoken and written English. Created by Sheila Thorn of The Listening Business, the series reflects the latest academic theories on the importance of authentic listening practice in language acquisition. Suitable for learners at Intermediate level (CEF level B1-B2). Listening 1 develops students ability to understand real-life spoken English through recordings of spontaneous, natural speech, which have been carefully selected and edited for pre-intermediate learners. The activities are designed to encourage students to draw on their own natural listening strategies and to apply them effectively in the context of language learning. The third edition of this groundbreaking book includes videotaped lectures in DVD or VHS format. Now teachers can use the audio program (available on both tapes and CD) with the support of video simulation of an academic lecture experience. Many new and updated lectures with high-interest topics are included. INTERMEDIATE LISTENING COMPREHENSION is designed to familiarize students with the major rhetorical patterns of formal, spoken English. Learning English for Academic Purposes LEAP 2nd edition for English language learners preparing for study in Higher Education is now a two-book series focussing on key language skill development incorporating global issues material with academic content Provides an intermediate level book for students to develop the listening and note-taking skills they need. Using audio and video input to develop listening, speaking, and critical thinking skills for the high intermediate level, this title provides an opportunity for both recognition of different speaking styles as well as culture-rich understanding of the topics from multiple perspectives. My eLab Documents include: Vocabulary lists by chapter and master Academic Word List. Audio and video files for textbook listenings. A referencing guide.

Teacher's Guide with answer keys and notes, audio and video scripts, alternative final assignments, and tests. *Cursus Engels voor gevorderde studenten met luisteroefeningen die gebaseerd zijn op alledaagse situaties.* Listening Tasks is for low-intermediate and intermediate level students who need to understand authentic American English spoken at normal speed in everyday situations. Practical topics, such as calling about an apartment, catching a plane, and finding out what's going on in town, make the material interesting and motivating for students. The cassette consists of public address announcements, telephone exchanges, dialogues, and other short recordings of people speaking naturally with the normal pauses, hesitations, and interruptions that occur in authentic spoken language. Students listen to the tape, then perform simple tasks, such as labelling a diagram or map and filling in a form or chart. The emphasis is on sifting out the important information and getting the gist of what is heard rather than on trying to understand every word. Reading and writing exercises related to the theme of the listening task are included in each unit. Listen to the Loon is a listening activity text which offers students the challenge of exercising their listening skills while learning about the history, geography, and people of Canada. The 14 units cover a unique aspect of each province and territory and each presentation is accomplished through a short talk on a cassette. In a diverse society, the ability to cross communication barriers is critical to the success of any individual personally, professionally, and academically. With the constant acceleration of course programs and technology, educators are continually being challenged to develop and implement creative methods for engaging English-speaking and non-English-speaking learners. *Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications* is a vital reference source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies, flipped instruction, and language-learning software. This multi-volume book is geared toward educators, researchers, academics, linguists, and upper-level students seeking relevant research on the improvement of language education through the use of technology. The NorthStar video program includes ten engaging video segments, including segments from ABC News, featuring topics correlated to the themes in the NorthStar 3 listening and speaking, and reading and writing, student books. Each video segment is from 2 to 5 minutes long and incorporates key vocabulary from the student books. The DVD guide contains unit-by-unit video scripts, as well as vocabulary for comprehension and background notes to enhance the accessibility and enjoyment of the video material. Each of the ten video segments has an optional corresponding video activity that is designed for students to use in class before, during, and after viewing the video. The activities can be downloaded from the NorthStar companion website. The Just Skills series provides a flexible set of teaching materials for use individually or in any combination to form an integrated course. The Just Skills series, available at four levels, comprises Grammar, Vocabulary, Listening & Speaking, and Reading & Writing books. As an essential part of communicative competence, listening is a skill which deserves equal treatment with the other basic skills of speaking, reading, and writing. Second Language Listening combines up-to-date listening theory with case studies of actual pedagogical practice. The authors describe current models of listening theory and exemplify each with a textbook task. They address the role of technology in teaching listening, questioning techniques, and testing. Second Language Listening is designed to be used with both pre-service and in-service teachers who are involved in the teaching of listening or the design of pedagogic materials for listening. English in the real world is constantly evolving, and learners need to move with it. But sometimes the English you can learn from your coursebook just isn't enough for real life. Being able to understand English as it is really spoken will give you the confidence to succeed in any English speaking environment.
