When Christ was asked questions He would often refer people back to the beginning, to the origin of the plan of our Heavenly Father for His creation. In his commentary on the book of Genesis, Dr. Bailey shows how it is vital to understand God's intentions from the beginning in order to understand God's plan for mankind as well as the many spiritual truths that relate to the life of the believer today. The first comprehensive introduction to the origins, aspirations, and evolution of live coding. Performative, improvised, on the fly: live coding is about how people interact with the world and each other via code. In the last few decades, live coding has emerged as a dynamic creative practice gaining attention across cultural and technical fields—from music and the visual arts through to computer science. Live Coding: A User's Manual is the first comprehensive introduction to the practice, and a broader cultural commentary on the potential for live coding to open up deeper questions about contemporary cultural production and computational culture. This multi-authored book—by artists and musicians, software designers, and researchers—provides a practice-focused account of the origins, aspirations, and evolution of live coding, including expositions from a wide range of live coding practitioners. In a more conceptual register, the authors consider liveness, temporality, and knowledge in relation to live coding, alongside speculating on the practice's future forms. Americans—especially young people—are more un-churched and less affiliated with organized religion than at any other time in our history. I Don't Know What to Believe addresses that decline and presents an insightful examination of authentic spirituality for those who desire answers, guidance, and perspective regarding an important aspect of their lives: their beliefs, and relationship to, a higher power. Rabbi Ben Kamin addresses questions he has received from real people over the thirty years of his ministry, such as: Why does

my parents' religion have to define me? Am I God's child even if I don't go to religious services? Does scripture include me in its ideology regardless of how much scripture I know? How do I follow my own spirituality while still respecting my parents' traditions? Ben Kamin is the award-winning author of ten books and is a scholar on the life and work of Dr. Martin Luther King, Jr. He has led congregations in Toronto, New York, Cleveland, and San Diego since his ordination in 1978. This little book is a collection of messages on Discipleship Training in Holy Ghost School recorded at Right hand of the LORD Fellowship, Egbe- Lagos, Nigeria. It happened that I was disciplined by two ministers of God: Rev. Joses Hizkiah of Unfailing Life Ministries and Prophet Lambert Eze Okafor of LaFAMCALL (End-Time) Ministries. After this, I forgot about the training and continued in my former method of ministration as I could not pick up the teaching immediately. It was at this juncture of stalemate or deadlock that the LORD quickened me one day to start on the teaching on Holy Ghost Discipleship by faith that the inspiration came to start putting down in writing as the LORD started to help me along. After a considerable number of lessons, the directive came from the LORD to compile the messages into a leaflet for discipling members of the fellowship. Buddha was a revolutionary. His practice was subversive; his message, seditious. His enlightened point of view went against the norms of his day—in his words, "against the stream." His teachings changed the world, and now they can change you too. Presenting the basics of Buddhism with personal anecdotes, exercises, and guided meditations, bestselling author Noah Levine guides the reader along a spiritual path that has led to freedom from suffering and has saved lives for 2,500 years. Levine should know. Buddhist meditation saved him from a life of addiction and crime. He went on to counsel and teach countless others the Buddhist way to freedom, and here he shares those life-changing lessons with you. Read and awaken to a new and better life. "Why did it take me so long to discover the singular joys of Barbara Trapido's novels? Why, for so many years, had I missed these witty, soulful, heartbreaking, expansive, brilliant tales? I have become a literary evangelist on her behalf." --Elizabeth Gilbert

A thorough analysis of contemporary digital media practices, showing how people increasingly not only consume but also produce and even design media. With many new forms of digital media—including such popular social media as Facebook, Twitter, and Flickr—the people formerly known as the audience no longer only consume but also produce and even design media. Jonas Löwgren and Bo Reimer term this phenomenon collaborative media, and in this book they investigate the qualities and characteristics of these forms of media in terms of what they enable people to do. They do so through an interdisciplinary research approach that combines the social sciences and humanities traditions of empirical and theoretical work with practice-based, design-oriented interventions. Löwgren and Reimer offer analysis and a series of illuminating case studies—examples of projects in collaborative media that range from small multidisciplinary research experiments to commercial projects used by millions of people. Löwgren and Reimer discuss the case studies at three levels of analysis: society and the role of collaborative media in societal change; institutions and the

relationship of collaborative media with established media structures; and tribes, the nurturing of small communities within a large technical infrastructure. They conclude by advocating an interventionist turn within social analysis and media design. Learn how to draw the Bible story Noah's Ark!
