Book with No Name Jan 07 2022 For many centuries the library of
lawless hell hole Santa Mondegga, in South America, has held a
gruesome secret. There is on its shelves a nameless book, by an
anonymous author, and everyone who has ever read it ... is dead.

Walter Johnson Had No Idea Jan 15 2020 A dirt farmer in
Southern Indiana in the year 1924 chose to name his son after a
famous baseball player who would someday enter the Hall of
Fame in Cooperstown. Little did anyone know at the time,
including that famous player, just how much that decision would

mean to that son and the generations to follow. That was the beginning of a love affair with baseball that would identify this family, a love that would begin with the Washington Senators and move on to Minnesota in 1961. Now five generations in, this family allegiance is still very much alive today. This is a story of the son of that son with the famous name and his love of baseball that was handed down to him. He in turn has passed that love on to his son, who now has a daughter who will hopefully understand this love of the game. Memories are made with the game of baseball, and so many are worth sharing. As the pages of this book are turned, the reader will begin to recognize many of these memories and hopefully be reminded of memories that are part of their lives. Hopefully, the reader will have a better understanding of how generations of a family can be connected by the threads of a baseball.

Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only

then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . We Have No Idea Dec 14 2019 Prepare to learn everything we still don't know about our strange and mysterious universe

Humanity's understanding of the physical world is full of gaps. Not tiny little gaps you can safely ignore —there are huge yawning voids in our basic notions of how the world works. PHD Comics creator Jorge Cham and particle physicist Daniel Whiteson have teamed up to explore everything we don't know about the universe: the enormous holes in our knowledge of the cosmos. Armed with their popular infographics, cartoons, and unusually entertaining and lucid explanations of science, they give us the best answers currently available for a lot of questions that are still perplexing scientists, including: * Why does the universe have a speed limit? * Why aren't we all made of antimatter? * What (or who) is attacking Earth with tiny, superfast particles? * What is dark matter, and why does it keep ignoring us? It turns out the universe is full of weird things that don't make any sense. But Cham and Whiteson make a compelling case that the questions we can't answer are as interesting as the ones we can. This fully illustrated introduction to the biggest mysteries in physics also helpfully demystifies many complicated things we do know about, from quarks and neutrinos to gravitational waves and exploding

black holes. With equal doses of humor and delight, Cham and Whiteson invite us to see the universe as a possibly boundless expanse of uncharted territory that's still ours to explore.

A Book About Love Apr 17 2020 "Jonah Lehrer has a lot to offer the world....The book is interesting on nearly every page....Good writers make writing look easy, but what people like Lehrer do is not easy at all." —David Brooks, The New York Times Book Review
Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, Jonah Lehrer's A Book About Love plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it's easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of "falling" in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime.

The Saint, the Surfer, and the CEO May 11 2022 From the bestselling author of *The Monk Who Sold His Ferrari* A chance encounter following a near-death experience sends Jack Valentine on a paradigm-shifting quest to understand the true meaning of life and find his most authentic self Jack Valentine

seemed to have it all. He made good money as an ad man and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy ("the love of wisdom"), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal. First, in Rome, Jack will meet "the Saint." Then a haunted beach in Hawaii introduces him to "the Surfer." And finally the grandeur of New York City sets the stage for his last encounter: with "the CEO." Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your heart. Join Jack on his journey and step into the you that you were always meant to be.

No Time Like the Future May 31 2021 INSTANT NEW YORK TIMES BESTSELLER A moving account of resilience, hope, fear and mortality, and how these things resonate in our lives, by actor and advocate Michael J. Fox. The entire world knows Michael J. Fox as Marty McFly, the teenage sidekick of Doc Brown in Back to the Future; as Alex P. Keaton in Family Ties; as Mike Flaherty in Spin City; and through numerous other movie roles and guest appearances on shows such as The Good Wife and Curb Your Enthusiasm. Diagnosed at age 29, Michael is equally engaged in Parkinson's advocacy work, raising global awareness of the disease and helping find a cure through The Michael J. Fox Foundation for Parkinson's Research, the world's leading non-profit funder of PD science. His two previous bestselling memoirs, Lucky Man and Always Looking Up, dealt with how he came to terms with the illness, all the while exhibiting his iconic

optimism. His new memoir reassesses this outlook, as events in the past decade presented additional challenges. In *No Time Like the Future: An Optimist Considers Mortality*, Michael shares personal stories and observations about illness and health, aging, the strength of family and friends, and how our perceptions about time affect the way we approach mortality. Thoughtful and moving, but with Fox's trademark sense of humor, his book provides a vehicle for reflection about our lives, our loves, and our losses. Running through the narrative is the drama of the medical madness Fox recently experienced, that included his daily negotiations with the Parkinson's disease he's had since 1991, and a spinal cord issue that necessitated immediate surgery. His challenge to learn how to walk again, only to suffer a devastating fall, nearly caused him to ditch his trademark optimism and "get out of the lemonade business altogether." Does he make it all of the way back? Read the book.

I Had No One to Tell Dec 18 2022 From a small child I was always told, "Don't tell anyone the things happening within the household or what happens in my house stays in my house. Behind closed doors should be kept a secret. People snickered behind the backs of the people they should help. What was supposed to be a mechanism to build a healthy family relationship, ended up keeping me bound in fear. I was failed by societies don't tell policy not being extracted from our home. In a small town Justice doesn't prevail for our children. Falling prey to savages who tell you they love you" but within the same minute, harming you happens often to children. Their life becomes a living hell, searching for a way out and for someone's Love without pain infliction. The Don't tell" policy has been lifted by this six year old girl without damaged growth and now the secrets out.

Sweet Sorrow Sep 22 2020 From the best-selling author of One Day comes a bittersweet and brilliantly funny coming-of-age tale about the heart-stopping thrill of first love—and how just one summer can forever change a life. Now: On the verge of marriage and a fresh start, thirty-eight year old Charlie Lewis finds that he can't stop thinking about the past, and the events of one particular summer. Then: Sixteen-year-old Charlie Lewis is the kind of boy you don't remember in the school photograph. He's failing his classes. At home he looks after his depressed father—when surely it should be the other way round—and if he thinks about the future at all, it is with a kind of dread. But when Fran Fisher bursts into his life and despite himself, Charlie begins to hope. In order to spend time with Fran, Charlie must take on a challenge that could lose him the respect of his friends and require him to become a different person. He must join the Company. And if the Company sounds like a cult, the truth is even more appalling: The price of hope, it seems, is Shakespeare, Romeo and Juliet learned and performed in a theater troupe over the course of a summer. Now: Charlie can't go the altar without coming to terms with his relationship with Fran, his friends, and his former self. Poignant, funny, enchanting, devastating, Sweet Sorrow is a tragicomedy about the rocky path to adulthood and the confusion of family life, a celebration of the reviving power of friendship and that brief, searing explosion of first love that can only be looked at directly after it has burned out.

The Book with No Title Feb 08 2022 It's said that men don't like to ask for directions. In volume two of this series, Ruben and Jason candidly reveal why. With a fatherless generation plaguing our society, they confront men across the world by challenging them to stop dying for their families and start living for them. This volume provides men a rawness that is rare in today's men group meetings, but Ruben and Jason believe that without this type of transparency, true manhood will never flourish.

The Leader Who Had No Title Feb 20 2023 From the author of "The Monk Who Sold His Ferrari" comes an inspiring parable about the skills needed to excel in career and life.

Good to Great Nov 12 2019 The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did

one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

We Had No Rules Aug 14 2022 A young teenager stays a step ahead of her parents' sexuality-based restrictions by running away and learns a very different set of rules. A woman grieves the loss of a sister, a "gay divorce," and the pain of unacknowledged abuse with the help of a lone wallaby on a farm in Washington State. A professor of women's and gender studies revels in academic and sexual power but risks losing custody of the family dog. In Corinne Manning's stunning debut story collection, a cast of queer characters explore the choice of assimilation over rebellion. In this historical moment that's hyperaware of and desperate to define even the slowest of continental shifts, when

commitment succumbs to the logic of capitalism and nobody knows what to call each other or themselves—Gay? Lesbian? Queer? Partners? Dad?—who are we? And if we don't know who we are, what exactly can we offer each other? Spanning the years 1992 to 2019, and moving from New York to North Carolina to Seattle, the eleven first-person stories in *We Had No Rules* feature characters who feel the promise of a radically reimagined world but face complicity instead.

No One Is Talking About This Oct 24 2020 FINALIST FOR THE 2021 BOOKER PRIZE & A NEW YORK TIMES TOP 10 BOOK OF 2021 WINNER OF THE DYLAN THOMAS PRIZE "A book that reads like a prose poem, at once sublime, profane, intimate, philosophical, witty and, eventually, deeply moving." —New York Times Book Review, Editors' Choice "Wow. I can't remember the last time I laughed so much reading a book. What an inventive and startling writer...I'm so glad I read this. I really think this book is remarkable." —David Sedaris From "a formidably gifted writer" (The New York Times Book Review), a book that asks: Is there life after the internet? As this urgent, genre-defying book opens, a woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by navigating the new language and etiquette of what she terms "the portal," where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats--from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness--begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. "Are we in hell?" the people of the portal ask themselves. "Are we all just going to keep doing this until we die?" Suddenly, two texts from her mother pierce the fray: "Something has gone wrong," and "How soon can you get here?" As real life and its stakes collide with the

increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Fragmentary and omniscient, incisive and sincere, *No One Is Talking About This* is at once a love letter to the endless scroll and a profound, modern meditation on love, language, and human connection from a singular voice in American literature.

The Poor Had No Lawyers Jul 01 2021 In this updated edition of his "utterly magnificent" social history, the Scottish parliamentarian examines the privatization of Scotland's common land (Sunday Herald, UK). As an author, activist, and politician, Andy Wightman has made a career of fighting for Scottish land reform. In this provocative and influential book, Wightman offers a revealing analysis of how and why landowners got their hands on the millions of acres that were once held in common. He also tells the untold story of how the Scottish legal and political establishment appropriated land through legal fixes. Throughout, Wightman poses some provocative questions: Have attempts to redistribute power made any difference? What are the implications of the debt-fueled housing bubble, the Smith Commission, and the new Scottish Government's proposals on land reform? Can we get our common good land back? For all those with an interest in urban and rural land in Scotland, this edition of *The Poor Had No Lawyers*, updated with new statistics, provides a fascinating analysis of one the most important political questions in Scotland.

The Book with No Pictures Jan 19 2023 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-

winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)
