"Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. This provocative historical reassessment sheds new light on the decisions of British politicians that led to the creation of Israel. Separating myth and propaganda from historical fact, Carly Beckerman explores how elite political battles in

London inadvertently laid the foundations for the establishment of the State of Israel. Drawing on foreign policy analysis and previously unexamined archival sources, *Unexpected State* examines the strategic interests, international diplomacy, and political maneuvering in Westminster that determined the future of Palestine. Contrary to established literature, Beckerman shows how British policy toward the territory was dominated by domestic and international political battles that had little to do with Zionist or Palestinian interests. Instead, the policy process was aimed at resolving issues such as coalition feuds, party leadership battles, spending cuts, and riots in India. Considering detailed analysis of four major policy-making episodes between 1920 and 1948, *Unexpected State* interrogates key Israeli and Palestinian narratives and provides fresh insight into the motives and decisions behind policies that would have global implications for decades to come. "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as an addendum to vol. 26, no. 7. *Fighting Rommel* examines how and why some armies innovate under pressure while others do not. Focusing on the learning culture of the British Imperial Forces, it looks at the Allied campaign during the Second World War against the Afrika Korps of Rommel. The volume highlights the hitherto unexplored yet key role of the British Indian Army, the largest volunteer force in the world. It also introduces 'learning culture' as a heuristic device. Further, it goes on to analyze military innovation on the battlefield, in victory and defeat. A major intervention in the study of the Second World War, this book will be indispensable to scholars and researchers of military history, especially British and German, battlefield history, and defence and strategic studies.
