Le jour des obsèques du grand-père, la famille est en train d'attendre le prêtre dans la cathédrale Notre-Dame de Paris lorsqu'une petite dame énergique s'approche du cercueil, pose un baiser d'adieu sur le front du défunt et, souriant malicieusement en direction de l'assistance, actionne une vieille sonnette de vélo. Dans les premières rangées, on chuchote. S'agit-il de la fameuse Louise, le grand amour du grand-père Léon ? Ils n'avaient pas vingt ans lors de leur rencontre dans un petit village français vers la fin de la Première Guerre mondiale. Bientôt séparés par les hasards de l'Histoire et les vents contraires du destin, les deux jeunes gens ne s'oublieront jamais, quelle que soit l'époque traversée, la Première Guerre en Normandie, l'Occupation à Paris... Hoping to get some good deals at the Bethesda Garden Club's spring plant sale, Louise Eldridge, Host of "Gardening with Nature," finds herself cultivating a murder investigation instead when the club president is murdered. Reprint. The first biography of the artist who “essentially invented indie and alternative rock” (Spin) A brilliant and influential songwriter, vocalist, and guitarist, the charismatic Alex Chilton was more than a rock star—he was a true cult icon. Awardwinning music writer Holly George-Warren’s A Man Called Destruction is the first biography of this enigmatic artist, who died in 2010. Covering Chilton’s life from his early work with the charttopping Box Tops and the seminal power-pop band Big Star to his experiments with punk and roots music and his sprawling solo career, A Man Called Destruction is the story of a musical icon and a richly

detailed chronicle of pop music's evolution, from the mid-1960s through today's indie rock. Alex's Wake is a tale of two parallel journeys undertaken seven decades apart. In the spring of 1939, Alex and Helmut Goldschmidt were two of more than 900 Jewish refugees fleeing Nazi Germany aboard the St. Louis, "the saddest ship afloat" (New York Times). Turned away from Cuba, the United States, and Canada, the St. Louis returned to Europe, a stark symbol of the world's indifference to the gathering Holocaust. The Goldschmidts disembarked in France, where they spent the next three years in six different camps before being shipped to their deaths in Auschwitz. In the spring of 2011, Alex's grandson, Martin Goldsmith, followed in his relatives' footsteps on a six-week journey of remembrance and hope, an irrational quest to reverse their fate and bring himself peace. Alex's Wake movingly recounts the detailed histories of the two journeys, the witnesses Martin encounters for whom the events of the past are a vivid part of a living present, and an intimate, honest attempt to overcome a tormented family legacy. „Léon und Louise“ sind nicht nur ein Paar zum Verlieben - der gleichnamige Roman von Alex Capus eignet sich in besonderer Weise als geographische und literarische Reisebegleitung durch die Normandie nach Paris. . Auszug aus dem Interview mit Alex Capus

Anthropologists have acted as experts and educators on the nature and ways of life of people worldwide, working to understand the human condition in broad comparative perspective. As a discipline, anthropology has often advocated — and even defended — the cultural integrity, authenticity, and autonomy of societies across the globe. Public anthropology today carries out the discipline’s original purpose, grounding theories in lived experience and placing empirical knowledge in deeper historical and comparative frameworks. This is a vitally important kind of anthropology that has the goal of improving the modern human condition by actively engaging with people to make changes through research, education, and political action. Max has been married to Tina for twenty-five years. She is the love of his life, but now he must come to terms with the fact that she is to spend a year away on a work assignment—away, for the first time, from their home, their children and their life together. Her absence leaves him feeling like an Odysseus in reverse: he stays put while his Penelope goes out into the world. Max, alone with his three teenage sons for the first time, is left contemplating life and the daily routine of the little bar of which he is the proprietor. As he spends more time with the regulars their problems begin to become his own. This new novel by Alex Capus is a hymn to trust, friendship and life’s small pleasures. Told with his trademark humor, *Life is Good* is a novel about finding contentment in rootedness as the world speeds up. Alex Capus’s novels have been runaway best-sellers in Germany, and his novel *Léon and Louise* received widespread critical acclaim on its English publication in 2012. *A Price to Pay*, the fourth of Capus’s novels

to be published in English, tells the interwoven stories of three disparate figures from interwar Switzerland: pacifist Felix Bloch, who ends up working on the Manhattan Project; Laura d'Oriano, who wants to become a singer but instead becomes an Allied spy in fascist Italy; and Emile Gillieron, who accompanies Heinrich Schliemann to Troy and becomes one of art's greatest forgers. Taking off from the only moment in history when all three were in the same place—a November day in 1924 at Zürich Station—Capus traces their diverging paths as they secure their places in the annals of history—but at what price? Classical science fiction awaits the reader with two complete novels. The fate of Mankind and Earth hangs in the balance with these tales of the Apocalypse: 1.....The United States and Russia stand at the brink of war, Russia's warlords make a strange alliance with the underworld-----and disaster faced all the democratic peoples of the Earth! Unless there were really Gods in space!

2.....Armageddon.....During the history of every planet in the universe, a time arrives when the final battle of Armageddon must be fought. The participants, however, aren't native to it! Two tales of impending doom to inspire and excite your imagination! This book is a compilation of five papers published in two journals, Family Systems Forum and Family Systems: A Journal of Natural Systems Thinking in Psychiatry, between 2008 and 2013. These journals are dedicated to exploring the theory of the family developed by Dr. Murray Bowen (1913-1990). Bowen was one of the leaders in the emergence of family systems theory and therapy beginning in the 1950s. Bowen came to understand that much of human behavior is a product of the family unit, and has a function for the family unit. The papers in this volume explore how beliefs - worldviews, philosophies, values, goals, principles, although emerging in an individual brain, can be regarded

as a product of the family unit, and have a function for the family unit. Case studies include Dietrich Bonhoeffer, Henry David Thoreau, Walter Inglis Anderson, Robert Lowell and Jean Stafford. Alex MacLean was the inspiration for the title character in Jack London's bestselling novel *The Sea-Wolf*. Originally from Cape Breton, MacLean sailed to the Pacific side of North America when he was twenty-one and worked there for thirty-five years as a sailor and sealer. His achievements and escapades while in the Victoria fleet in the 1880s laid the foundation for his status as a folk hero. But this biography reveals more than the construction of a legend. Don MacGillivray opens a window onto the sealing dispute brought the United States and Britain to the brink of war, with Canadian sealing interests frequently enmeshed in espionage, scientific debate, diplomatic negotiations, and vexing questions of maritime and environmental law.
