**The Expatriates** Jul 10 2021 "Raise a glass: The first great book-club novel of 2016 has arrived." —USA Today, 4/4 stars "A female, funny Henry James in Asia, Janice Y. K. Lee is vividly good on the subject of Americans abroad." —The New York Times Book Review "Sex and the City meets Lost in Translation." —The Skimm Janice Y. K. Lee's New York Times bestselling debut, *The Piano Teacher*, was called "immensely satisfying" by People, "intensely readable" by O, The Oprah Magazine, and "a rare and exquisite story" by Elizabeth Gilbert. Now, in her long-awaited new novel, Lee explores with devastating poignancy the emotions, identities, and relationships of three very different American women living in the same small expat community in Hong Kong. Mercy, a young Korean American and recent Columbia graduate, is adrift, undone by a terrible incident in her recent past. Hilary, a wealthy housewife, is haunted by her struggle to have a child, something she believes could save her foundering marriage. Meanwhile, Margaret, once a happily married mother of three, questions her maternal identity in the wake of a shattering loss. As each woman struggles with her own demons, their lives collide in ways that have irreversible consequences for them all. Atmospheric, moving, and utterly compelling, *The Expatriates* confirms Lee as an exceptional talent and one of our keenest observers of women's inner lives.

**Come on Highlanders!** Jan 04 2021 Formed in 1868, and already possessors of a proud history by the outbreak of the First World War, the men of the 9th (Glasgow Highland) Battalion, The Highland Light Infantry, were right at the heart of the cataclysmic events that unfolded between 1914 and 1918 on the Western Front. One of the first Territorial units to be rushed to France in 1914, they participated in almost all the major British battles, including the Somme in 1916 and Ypres in 1917. Altogether, around 4,500 men served with the Glasgow Highlanders in the First World War. The composition of the Glasgow Highlanders changed dramatically over five years of fighting, as the original Territorial members were replaced. Despite this change, the ethos of the battalion, built up over half a century of peace and many months of warfare, survived. Alec Weir has steeped himself in the proud history of the Glasgow Highlanders in the First World War. His accessible, informal style, employing many first hand accounts, and his rigorous research combine here to produce a fascinating and detailed account of how ordinary men from all walks of life confronted and mastered the hellish conditions of trench warfare.

**Digger, Dozer, Dumper** Aug 11 2021 Sixteen boisterous, rhyming poems — each one highlighting the job and personality of a different vehicle, from a backhoe to an ambulance to a snowplow — invite young children to meet their favorite trucks face-to-face. Cheerful illustrations show each one in action, digging (or dozing, or dumping) away. Engaging visual details like an anxious turtle crossing the street just ahead of a steamroller are sure to keep preschoolers poring over the pages as they consider the question, "Trucks as far as eyes can see. . . . Which truck would you like to be?"

**An Imperial Possession** Nov 02 2020 Part of the Penguin History of Britain series, *An Imperial Possession* is the first major narrative history of Roman Britain for a generation. David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period. From the rebellious chiefs and druids who led native British resistance, to the experiences of the Roman military leaders in this remote, dangerous outpost of Europe, this book explores the reality of life in occupied Britain within the context of the shifting fortunes of the Roman Empire.

**The Hot Zone** Dec 15 2021 The bestselling landmark account of the first emergence of the Ebola virus. Now a mini-series drama starring Julianna Margulies, Topher Grace, Liam Cunningham, James D'Arcy, and Noah Emmerich on National Geographic. A highly

infectious, deadly virus from the central African rain forest suddenly appears in the suburbs of Washington, D.C. There is no cure. In a few days 90 percent of its victims are dead. A secret military SWAT team of soldiers and scientists is mobilized to stop the outbreak of this exotic "hot" virus. The Hot Zone tells this dramatic story, giving a hair-raising account of the appearance of rare and lethal viruses and their "crashes" into the human race. Shocking, frightening, and impossible to ignore, The Hot Zone proves that truth really is scarier than fiction.

Inside the Lost Museum May 20 2022 Museum lovers know that energy and mystery run through every exhibition. Steven Lubar explains work behind the scenes—collecting, preserving, displaying, and using art and artifacts in teaching, research, and community-building—through historical and contemporary examples, especially the lost but reimagined Jenks Museum at Brown University.

**Foundations of Ecology II** Oct 21 2019 A sweeping overview of key advances in the field of ecology over the latter half of the twentieth century. For three decades, *Foundations of Ecology*, edited by Leslie A. Real and James H. Brown, has served as an essential primer for graduate students and practicing ecologists, giving them access to the classic papers that laid the foundations of modern ecology alongside commentaries by noted ecologists. Ecology has continued to evolve, and ecologists Thomas E. Miller and Joseph Travis offer here a freshly edited guide for a new generation of researchers. The period of 1970 to 1995 was a time of tremendous change in all areas of this discipline—from an increased rigor for experimental design and analysis and the reevaluation of paradigms to new models for understanding, to theoretical advances. *Foundations of Ecology II* includes facsimiles of forty-six papers from this period alongside expert commentaries that discuss a total of fifty-three key studies, addressing topics of diversity, predation, complexity, competition, coexistence, extinction, productivity, resources, distribution, and abundance. The result is more than a catalog of historic firsts; this book offers diverse perspectives on the foundational papers that led to today's ecological work.

Farming in Miniature 1 Jul 22 2022 Farming in Miniature is an essential guide for collectors of British toy models interested in farm tractors, farm horses and associated agricultural equipment. The manufacturers / brands are arranged alphabetically. Each manufacturer has its own chapter introduced by an account of its history. These introductions cross-refer to the captioned photographs that follow and which make up the bulk of the chapters. In their general introduction the authors say that they have attempted to illustrate all significant variations of colour and packaging, particularly of rare or unusual models, so as to make the book as comprehensive as possible. The three authors, all leading authorities, have drawn on their extensive past experience coupled with another five years to research, write and prepare photographs.

Morningstar Mar 26 2020 There was nothing Jarek Mace wouldn't do for the right price—including becoming a hero. The Angostin hordes raged over the Southern Borders. Evil sorcery ruled, and the vampyre kings lived once more. The Highland people were in much need of a great hero. Jarek Mace needed nothing and no one—not even that bard Owen Odell, with whom he now traveled. But when Mace harassed the Angostins for his own purposes, he inadvertently aided the Highland people. And now he was being hailed as a hero, a legend, the great Morningstar returned. But Owen Odell knew the real man behind the people's tales. Mace was an outlaw, a bandit, a heartless thief. He was no savior of the people. He was no legend. Or was he? “It seems that every time I read a new David Gemmell novel it is better than the last—and Morningstar is no exception. . . . The main difference between the book and the myths it draws upon is that Gemmell includes some of the less savory characters who we suspect may have been at the basis of both Robin and Arthur.”—Starburst

Writers on the Spectrum Apr 19 2022 Some of the world's most celebrated authors indicate signs of autism and AS. Through analysis of biographies, autobiographies, letters and diaries, Professor Julie Brown identifies literary talents who display characteristics of Autistic Spectrum Disorder (ASD) and uncovers the similarities in their writing that suggest atypical, autistic brains.

**Seventy Years of Farm Tractors 1930-2000** Aug 23 2022 By the end of the twentieth century there were some half-million tractors on British farms - more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4-wheel drive machines with air-conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis-Chalmers to Zetor, one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the histories of the companies and their major models, illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold-starting aids. He includes a glossary and full index. This book replaces the author's earlier, successful, *Fifty Years of Farm Tractors*. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty-first century.

The Rise and Fall of Communism May 08 2021 Winner of the 2010 W.J.M. Mackenzie Prize for Best Political Science Book of the Year 2010 The relentless rise of Communism was the most momentous political development of the first half of the twentieth century. No political change has been more fundamental than its demise in Europe and its decline elsewhere. In this hugely acclaimed book Archie Brown provides an indispensable history that examines the origins of the ideology, its development in different countries, its collapse in many states following the Soviet perestroika, and its current incarnations around the globe. *The Rise and Fall of Communism* explains how and why Communists came to power; how they were able, in a variety of countries on different continents to hold on to power for so long; and what brought about the downfall of so many Communist systems. A groundbreaking work from an internationally renowned specialist, this is the definitive study of the most remarkable political and human story of our times.

The World Made Straight May 28 2020 NOW A MAJOR MOTION PICTURE STARRING NOAH WYLE, JEREMY IRVINE, MINKA KELLY, ADELAIDE CLEMENS, STEVE EARLE, AND HALEY JOEL OSMENT. "ONE OF THE MAJOR WRITERS OF OUR TIME."—THE ATLANTA JOURNAL-CONSTITUTION Travis Shelton is seventeen the summer he wanders into the woods onto private property outside his North Carolina hometown, discovers a grove of marijuana large enough to make him some serious money, and steps into the jaws of a bear trap. After hours of passing in and out of consciousness, Travis is discovered by Carlton Toomey, the wise and vicious farmer who set the trap to protect his plants, and Travis's confrontation with the subtle evils within his rural world has begun. Before long, Travis has moved out of his parents' home to live with Leonard Shuler, a one-time schoolteacher who lost his job and custody of his daughter years ago, when he was framed by a vindictive student. Now Leonard lives with his dogs and his sometime girlfriend in a run-down trailer outside town, deals a few drugs, and studies journals from the Civil War. Travis becomes his student, of sorts, and the fate of these two outsiders becomes increasingly entwined as the community's terrible past and corrupt present bear down on each of them from every direction, leading to a violent reckoning—not only with Toomey, but with the legacy of the Civil War massacre that, even after a century, continues to divide an Appalachian community. Vivid, harrowing yet ultimately hopeful, *The World Made Straight* is Ron Rash's subtlest exploration yet of the painful conflict between the bonds of home and the desire for independence.
