Cities at War Sep 15 2022 Warfare in the twenty-first century goes well beyond conventional armies and nation-states. In a world of diffuse conflicts taking place across sprawling cities, war has become fragmented and uneven to match its settings. Yet the analysis of failed states, civil war, and state building rarely considers the city, rather than the country, as the terrain of battle. In Cities at War, Mary Kaldor and Saskia Sassen assemble an international team of scholars to

examine cities as sites of contemporary warfare and insecurity. Reflecting Kaldor's expertise on security cultures and Sassen's perspective on cities and their geographies, they develop new insight into how cities and their residents encounter instability and conflict, as well as the ways in which urban forms provide possibilities for countering violence. Through a series of case studies of cities including Baghdad, Bogotá, Ciudad Juarez, Kabul, and Karachi, the book reveals the unequal distribution of insecurity as well as how urban capabilities might offer resistance and hope. Through analyses of how contemporary forms of identity, inequality, and segregation interact with the built environment, Cities at War explains why and how political violence has become increasingly urbanized. It also points toward the capacity of the city to shape a different kind of urban subjectivity that can serve as a foundation for a more peaceful and equitable future.

Warin's War Aug 22 2020 Hybrids and full bloods became sworn enemies millennia ago. A hybrid witch, a full blood warg, and a fairy make unlikely companions, but maybe that's what it takes to save the world. Gabrielle McCallaghan sucked it up and quit a job she hated to spare her uncle the embarrassment of firing her. With her bond fairy on her shoulder, she's wandering through a crowded neighborhood contemplating her options when a full blood magic wielder makes a beeline right for her. Gabby's hybrid witch magic is no match for his, so she turns to flee. The contest is laughable. Even in his human form, the wolf-man is far stronger than she—or the fairy—ever dreamed of being. Warin is weary and disgusted with the long running war targeting hybrid mages. There's a bigger picture, but his kin refuse to consider it. His next stop is the Coven's council. Maybe he can light a fire under the hybrids. He's on his way there when an alluring witch crosses his path. Recognizing opportunity, he shifts strategies fast. If he can persuade one witch to his side, maybe others will see the light. With sex as a lure, Gabby is drawn into a deadly game of intrigue that started over a thousand years before. The stakes are high and the timing abysmal, but she falls in love in spite of herself. Can she and her full blood lover make a life for themselves? Or will the long-running battle between full bloods and hybrids pound their fragile bond to dust?

Global Tax Fairness Dec 18 2022 This book addresses sixteen different reform proposals that are urgently needed to correct the fault lines in the international tax system as it exists today, and which deprive both developing and developed countries of critical tax resources. It offers clear and concrete ideas on how the reforms can be achieved and why they are important for a more just and equitable global system to prevail. The key to reducing the tax gap and consequent human rights deficit in poor countries is global financial transparency. Such transparency is essential to curbing illicit financial flows that drain less developed countries of capital and tax revenues, and are an impediment to sustainable development. A major breakthrough for financial transparency is now within reach. The policy reforms outlined in this book not only advance tax justice but also protect human rights by curtailing illegal activity and making available more resources for development. While the reforms are realistic they require both political and an informed and engaged civil society that can put pressure on governments and policy makers to act.
