This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book. Containing names and chief synonyms, physical form and appearance, solubilities, percentage strengths and physiological effects, therapeutic uses, modes of administration and application, regular and maximum dosage, incompatibles, antidotes, precautionary requirements, etc., etc., of the chemicals and drugs usual in modern medical practice. Excerpt from Dental Medicine: A Manual of Dental Materia Medica and Therapeutics Since the appearance of the Seventh Edition, a number of drugs and their combinations have been introduced and many of them appear to be valuable additions to the dental materia medica. It has been the aim of the author, in preparing this new edition, to refer to the most important of these in order that the usefulness of this work as a text book and a book of reference may be increased. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. Excerpt from A Manual of Materia Medica and Therapeutics: Including the Preparations of the Pharmacopœias of London, Edinburgh, and Dublin, With Many New Medicines Classification and Medical properties, as connected with Structure. But instead of the full characters of Natural families which were given in the former edition, a tabular arrangement has been introduced. In the description of the Physical and Chemical and other characters of the Drugs, or of Materia Medica proper, he continues to adopt the Natural History arrangement as most conducive to accuracy of knowledge. Under each article are given, the Physical and Chemical properties of the inorganic or organic product used; and with the latter the description of the Mineral, Plant, or Animal producing the drug, along with its Preparations, Tests, Actions, Uses and Doses.
