The war is over and blackouts are a thing of the past, except in the village of Melchester, where the local council has refused to sully its streets with unsightly lamps. The night is pitch black, but hardly quiet. Young lovers are rendezvousing, a police constable is helping himself to a few of his neighbor's partridges, and a poet is going to visit his beloved, a new verse on his lips. She will never hear it, sadly, for the young man is stopped along his way – stopped forever, by the tight grip of the garrote. The local constabulary wastes no time reaching out to Scotland Yard, which sends its best man: the easygoing detective-inspector Littlejohn. In Melchester he will find unspeakable secrets – and one citizen whose soul is as dark as the village night. A USA TODAY BESTSELLER 'I'm insisting you date her. Five dates together, then I'll have this surgery.' Billionaire CEO Connor Stewart is being blackmailed. By his own grandmother, no less, who is refusing to have life-saving surgery unless Connor dates Mia Simms, his dull and dowdy marketing employee. For Violet's sake, Connor agrees to the crazy scheme. There's no risk of breaking his 'short-term only' rule with Mia Simms; she's not the kind of woman Connor is interested in ... and he's sure she's hiding something. He just doesn't expect it to be delicious curves and a firecracker personality. Mia Simms is hiding something, and it's much more dangerous than her looks. All she wants to do is live life in the safety of the shadows and avoid discovery. But perhaps a short-term fling is exactly what she needs to remind her to live. But what if Violet is right to push them together? Can Mia trust Connor enough to let him see the real person behind the facade she's built? Or is Violet's little scheme about to put both their lives in danger? Fake dating my sworn enemy to make my ex so jealous he can't see straight? Worth it. Silas and I agree on one thing, and one thing only: my ruthless, heartless, narcissistic jerk of an ex-fiancee needs to be taken down a notch. So we do what anyone would do: we pretend to be a couple. Even though Silas and I are polar opposites. Silas is a loud, cheerful, over the top showboat. He's his hometown's golden boy, the Marine who came back to rescue kittens from trees and walk old ladies across the street. And me? I'm the awkward new girl who freezes up around strangers and can't make small talk to save my life. It shouldn't work. We can barely have a conversation without arguing. There's no way we should be friends, let alone dating, except... Everyone believes it. Especially my ex. Now I'm having way too many real fantasies about the man who gets on my last nerve. My fake boyfriend is starting to feel a whole lot like a real one. The kisses feel real. The way he protects me feels real. The night we spend together in a hotel bed feels very real. This was supposed to be fake, but I think I might have fooled myself most of all. The One Month Boyfriend is the first book in the Wildwood Society series, and can be read as a total standalone. It's for fans of high heat enemies-to-lovers romantic comedies, and features two enemies who fake date for revenge, a quirky, charming small town, a former military cinnamon roll hero, a grumpy heroine who's charmed despite herself, anxiety and PTSD representation, and plenty of steamy scene. Of course, there's an HEA. This series is for fans of Kathryn Nolan, Elizabeth O'Roark, Kate Canterbury, and Melanie Harlow. It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay... It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life. Happily Ever After is Only for Fairytales... We think of cults as bizarre, inexplicable, or otherworldly places that only strange people inhabit, but cults and other abusive and high-demand groups (and relationships) are actually quite commonplace. In fact, the behaviors, social pressures, and authoritarian structures that create cults exist to a greater or lesser extent in every human relationship and every human group. Cult behavior is human behavior – and by studying cults, we can learn remarkably useful things about the social world and our place in it In the first in-depth research of its kind, sociologist and cult expert Janja Lalich interviewed sixty-five people who were born in or grew up in thirty-nine different cultic groups spanning more than a dozen countries. What's especially interesting about these individuals is that they each left the cult on their own, without outside help or internal support. In Escaping Utopia: Growing Up in a Cult, Getting Out, and Starting Over, Lalich and award-winning author (and fellow cult survivor) Karla McLaren craft Lalich's original and groundbreaking research into an accessible and engaging book, the first of its kind focusing on this particular population. Lalich and McLaren explore fundamental questions about human nature, human development, group dynamics, abuse and control, and triumphs of the human spirit in the face of intense and extended suffering. Leila's ex-husband is being released from prison early on good behavior and she found out too late. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. From, Your Secret Not Admirer An overview of complementary and alternative medicine discusses various treatments, including herbs and energy therapies, and examines how alternative and conventional therapies can be combined to treat twenty common conditions. Now featuring new cover artwork, Beth Moore's popular book To Live Is Christ looks closely at the passionate and inspiring faith and life of the apostle Paul. Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef is can't-miss sci-fi.
