Neglected and Underutilized Crops: Future Smart Food explores future food crops with climate resilience potential. Sections cover their botany, nutritional significance, global distribution, production technology, and tolerance to biotic and abiotic stresses of neglected and underutilized crops. By simply changing species in a crop rotation system, the cycle of some pests and diseases is disrupted and probabilities of infestations are reduced. Finally, the book provides case studies that highlight where the adaptation of crops to local environments, especially with regard to climate change, have been successful. These crops can help make agricultural production systems more resilient to climate change. Although a few books on neglected and underutilized crops are available, this comprehensive book covers the full scope of crop husbandry, nutritional significance and global distribution. Contains consistent coverage of botany, nutritional significance, production technology, and tolerance to biotic and abiotic stresses Presents case studies of success stories where adaptations in local environments have made a difference,

especially with climate change Addresses key opportunities for improving global food security This is an open access book. Pendidikan karakter di lingkup satuan pendidikan perguruan tinggi dilaksanakan melalui tridharma perguruan tinggi berbasis karakter (Eva, 2015). Pembentukan karakter mahasiswa sesuai dengan (1) Renstra kementerian pendidikan Nasional mencanangkan penerapan pendidikan karakter untuk seluruh jenjang pendidikan di Indonesia mulai tingkat Pendidikan anak Usia Dini (PAUD) sampai perguruan Tinggi (PT) dalam sistem pendidikan di Indonesia (Wahyuni, 2014). Konfigurasi karakter ditetapkan berdasarkan empat proses psikososial, yaitu mencakup olah pikir, olah hati, olah raga dan olah rasa/karsa (Zuchdi et al., 2010). (2) Kebijakan nasional pembangunan karakter bangsa untuk mewujudkan penanaman nilai Pancasila, dan mencegah pergeseran nilai bangsa (Alawiyah, 2012), (3) Mencanangkan revolusi karakter bangsa sebagai salah satu program strategis pendidikan di perguruan tinggi yang sesuai kebudayaan bangsa (Ta ' dib, 2016). Di dalam Renstra Universitas Muhammadiyah Makassar BAB III tentang kebijakan dan program strategis, salah satu strategi dasarnya adalah Peningkatan akhlakul karimah (Pendidikan Karakter) dengan pengembangan kehidupan kampus yang Islami yang ditandai dengan sikap, pandangan, tata kehidupan masyarakat kampus. Kemudian dituangkan dalam strategi program sampai tahun 2020 yaitu memperkokoh karakter melalui pendidikan nilai Al-Islam dan Kemuhammadiyah (AIK) (Renstra Unismuh, 2018). Semua itu dilakukan agar mahasiswa memiliki nilai-nilai karakter bangsa dan nilai-nilai Islami. Model integrasi pengembangan pendidikan karakter berbasis moral knowing, moral feeling, moral sinverbal, moral habitus dan moral culture, merupakan pengembangan dari model penanaman nilai-nilai karakter oleh (Lickona, 1991) yaitu integrasi pengetahuan karakter (moral knowing), perasaan tentang karakter (moral feeling) dan perilaku yang berkarakter (moral action), pengembangan model yang ditambahkan adalah moral sinverbal,

moral habitus dan moral culture pada level individu atau mahasiswa dan level kelompok atau Universitas, yang dikembangkan dalam aktivitas akademika di perguruan tinggi di Universitas Muhammadiyah Makassar sehingga pendidikan karakter bukan hanya dilakukan oleh individu saja namun secara kolektif oleh semua civitas akademika Universitas Muhammadiyah Makassar, pembentukan pribadi yang memiliki karakter positif (Nur et al., 2019).

Indonesian has been very attached with textile in their daily life for along time, perhaps this is the reason why The Nusantara has a wide range of textile, from materials, techniques, and products. Cereals, pulses, roots, and tubers are major food sources worldwide and make a substantial contribution to the intake of carbohydrates, protein, and fiber, as well as vitamin E and B. *The Handbook of Cereals, Pulses, Roots, and Tubers: Functionality, Health Benefits, and Applications* provides information about commercial cereals, pulses, and their nutritional profile, as well as health benefits and their food and non-food

applications. Split into four sections, this handbook covers all the recent research about the related crops and outlines matters needing further research in the field of agriculture sciences. Both qualitative and quantitative analysis of nutrients and bio-actives, and their beneficial effects on human health, are highlighted in this book. The conclusions drawn and future perspectives proposed in each chapter will also help researchers to take more focused approaches.

FEATURES Covers the full spectrum of cereals, pulses, roots, and tubers grain production, processing, and their use for foods, feeds, fuels, and industrial materials, and other uses Contains the latest information from grain science professionals and food technologists alike Provides comprehensive knowledge on the nutritional and non-nutritional aspects of cereals, pulses, and tubers Discusses the latest development in modification of native starch Provides information in enhancing shelf life and its utilization in phytochemical rich product development The result of various well-versed researchers across the globe sharing their knowledge and experience, this handbook will be a valuable resource for students, researchers, and industrial practitioners who wish to enhance their knowledge and insights on cereals, pulses, roots, and tubers. World health authorities recommend people maximize their protein intake through vegetable sources (such as pulses), and reduce protein intake from animal sources. Increasing vegetable protein intake has been shown to be positively associated with the reduction of both cardiovascular-disease-related mortality and all-cause mortality. Pulse consumption has been shown to improve satiety and metabolism of glucose and lipids, due to their high protein and fiber content, which makes their consumption ideal for preventing and managing obesity. In recent years, there has been increasing demand for pulses and pulse-based products in developed countries. Several large-scale collaborative research projects on pulse products have been initiated by government agencies. Similarly, established multinational food companies have developed pulse product units. **Pulses: Processing and Product Development** fulfills the need for a comprehensive book

on processing and products of pulses. The book addresses a specific pulse with each chapter to meet a wide range of audiences from undergraduate students to consumers. Kajian dalam buku ini mengungkapkan bagaimana pengaruh Orientasi Kewirausahaan, Orientasi Pasar dan Low Cost Strategy secara simultan dan parsial terhadap Kinerja Pemasaran dengan menggunakan metode pengumpulan data yaitu berupa kuesioner dan metode yang digunakan adalah analisis deskriptif dan analisis regresi berganda. Kajian buku ini memilih objek kajian kepada pelaku IKM ikan kering di Kabupaten Pasaman Barat dan pengumpulan data dilakukan dengan data primer dan data sekunder dengan metode sensus yaitu seluruh populasi dijadikan responden sebanyak 105 pelaku IKM ikan kering di Kabupaten Pasaman Barat. Pengelolaan data menggunakan regresi berganda dengan spss versi 20. Hasil kajian variabel orientasi kewirausahaan, orientasi pasar dan low cost strategy secara simultan berpengaruh positif dan signifikan terhadap kinerja pemasaran IKM ikan kering di Kabupaten Pasaman Barat. Besarnya pengaruh ketiga variabel dapat dilihat dari nilai hasil spss yaitu adjusted R Square dengan nilai 0,267. Kontribusi ketiga variabel bebas terhadap variabel terikat sebesar 0,267 atau 26,7 %, sisanya 0,733 atau 73,3 % dipengaruhi oleh variabel lain yang tidak diteliti seperti kreativitas program pemasaran, inovasi, kualitas produk, orientasi pelanggan, strategi differentiation dan strategi focus. Variabel orientasi kewirausahaan secara parsial berpengaruh

dan signifikan terhadap kinerja pemasaran IKM ikan kering di Kabupaten Pasaman Barat, variabel orientasi pasar berpengaruh positif dan signifikan terhadap kinerja pemasaran IKM ikan kering di Kabupaten Pasaman Barat, sedangkan variabel low cost strategy berpengaruh positif tetapi tidak signifikan terhadap kinerja pemasaran IKM ikan kering di Kabupaten Pasaman Barat. This is an open access book. This proceedings consists of research presented in ICOSI UMY, on 20-21 July 2022 at Universitas Muhammadiyah Yogyakarta. The conference covers the topic of health sciences and nursing. The key lesson from the COVID-19 pandemic is that the goal of health innovation should be Health for All. To achieve this goal, health innovations must be regulated in such a way as to benefit as many people globally as possible. Some critical issues in the scope of improving medical education and medicine, biomedical science innovation, and increasing quality of public health for better life are discussed. The proceedings include articles from Dental sciences, Pharmaceutical sciences, and Nursing sciences. As technology developers focused on providing impactful solutions to global development challenges, we have learnt that technology alone cannot be a solution to the problem. It has to be seen in the context where the solution is applied. The world crisis should spur us all to explore a new form of globalization for the future years, one that prioritize collective investment in global public goods -including technological and ethical goods- to the benefit of all. Such global integration must enable diverse stakeholders from across the public, private, and non-profit sectors worldwide to work more effectively and sustainably together. The 6th International Conference on Sustainable Innovation 2022 brings out the issues of the Sustainable Innovation and Global Society. With the main theme of “ “ Optimizing Global Benefit for Future Wellbeing ” , this conference is trying to play a role as a vehicle of showcasing scientific works from around the world, not only from researchers, lecturers, government officers, students and all parties with the same interests alike. Finally, all 51 papers published in this proceedings are expected

not only as research output but can be developed further into prototypes or evidence for policy making./div/div
